Extraordinary Event!**

**Don't Miss This
Extraordinary Event!**

**SUCCESS* Event:
Energy Options Series
Sponsored by CPS Energy****

**“Comparison of a Butterfly to a Dinosaur,
Three-Mile Island Incident and the Chernobyl Disaster ”**

It is an extremely rare opportunity to have, in the same city at this time two outstanding individuals who can be heard and questioned about their personal experiences at Three-Mile Island and Chernobyl. Dr. John Simonis, an educator at the UTSA ME Department, will discuss his experiences as an engineer assigned to Three-Mile Island during the time of the incident. Dr. Efstathios Michaelides, who recently moved to San Antonio from Tulane, New Orleans to become the Chairman of the UTSA ME Department, will discuss the background and results of his investigation of the dispersion of radionuclides in the environment following the Chernobyl accident. Mr. Michael Harris, from CPS Energy, will moderate the Question & Answer sessions after each presentation. At the outset, Mr. Mike Kotara, from CPS Energy (sponsor of the meeting), will make a presentation from their “Strategic Energy Plan.”
