

# BENEFIT to YOU

## As a Member of INCOSE

- Network with over 6,000 Systems Engineering Professionals Internationally
- *Insight*, INCOSE Quarterly Newsletter
- *Systems Engineering*, the Journal of INCOSE
- Contribute to the Profession through INCOSE Technical Committees

## Forum for SE Topics & Networking

- At the local level, Chesapeake holds regular monthly meetings on topics of interest
- Presentations from local and international speakers, panels, and paper presentations provides you with opportunities to learn
- **Have a systems engineering topic you would like to present? Contact our Program Director at [donald.york@incose.org](mailto:donald.york@incose.org)**

## Education Opportunities

Chesapeake hosts tutorials on subjects of interest to Systems Engineers and is open to both INCOSE members and non-members. In 2010 the Chesapeake Chapter held two tutorials on current topics of interest to the Systems Engineer and plan more in 2011.

## Communication Opportunities

Chesapeake maintains communications with its members with: flyers, email, and a website. You can obtain information, using the forum of your choice, and contribute in ways most convenient to you in collaborating with other Systems Engineers who are INCOSE members.

# 2011

## Chesapeake Chapter Supports Your Interest In Systems Engineering

2006

2002 & 2009

2003-2008, 2010

# CHARTER

**The Chesapeake Chapter was formed to provide a focal point for dissemination of Systems Engineering knowledge to members in the Northern & Central Maryland & Southern Pennsylvania area.**

## PURPOSE

The purpose of the Chesapeake Chapter is to foster the definition, understanding, and practice of world class systems engineering in industry, academia, and government.

## OBJECTIVES

The objectives of the Chesapeake Chapter are to provide a focal point for dissemination of systems engineering knowledge, and through involvement with *International Council on Systems Engineering*:

- ❑ Assure the existence of professional standards for the practice of systems engineering,
- ❑ Improve the professional status of all persons engaged in the practice of systems engineering,
- ❑ Encourage governmental and industrial collaboration and support for research and educational programs that will improve the systems engineering process and its practice, and
- ❑ Promote the acquisition and exchange of information on new technology, methods and practices within the systems engineering community.

## Corporate and Professional Support

The Chesapeake Chapter has over 250 members, representing over 90 Corporations, Government agencies, Universities, and Consultants.

# ACTIVITIES

- Symposiums, Conferences, Workshops, Seminars and Tutorials
- Monthly meetings with Presentations on Systems Engineering topics
- Our certified members are available to advise and mentor systems engineering colleagues who are considering certification.
- Provides assistance to our members who are without employment or seeking a job transition.
- Object Oriented Systems Engineering Methodology Working Group meets monthly

*Our Monthly Meeting features good food, great conversation, interesting door prizes and a fascinating lecture. Join us every third Wednesday.*

## Universities

In 2010 a New Student Division was started by the Chesapeake Chapter. Representatives include: Johns Hopkins University, and University of Maryland, Baltimore Campus (UMBC).

# GOALS

- ✓ Promote collaboration in Systems Engineering Education and Research
- ✓ Participate in the establishment of Professional Standards for integrity in the practice of Systems Engineering
- ✓ Foster professional growth of persons engaged in the practice of Systems Engineering
- ✓ Encourage Government and Industry support for improving Systems Engineering Research and Educational programs
- ✓ Promote Chapter activities with Industry, Government, and Academia within the Northern & Central Maryland geographical area
- ✓ Contribute to meeting the overarching goals of INCOSE
