Presents

Can the U.S. Solve the Challenges of a Globally Competitive Engineering Marketplace

Dr. Dianne Dorland, Dean of Engineering, Rowan University

Wed, Feb 23rd 2005

Why are we (the U.S.) at a competitive disadvantage when our markets are targeted?

Can we overcome state sponsored takeovers of our key industries?

What are the issues and how do we respond?

U.S. Engineering careers are in jeopardy from lower paid foreign competition?

Jobs are being outsourced, how do we stop it?

Is our education system directed to meeting these challenges?

Join the Southern New Jersey Sections of the IEEE and AIAA for a fascinating presentation by Dr. Dorland and begin to understand the real world challenges we face as professional engineers.

Call in your reservations by Tuesday, Feb 22nd.

Mays Landing Golf and Country Club, Frasier Room

1855 Cates Rd. Mays Landing, NJ (641-4411)

Check their website for directions: mayslandinggolf.com
