INCOSE Foundation Seeks Scholarship Nominees

The INCOSE Foundation, in cooperation with the Stevens Institute of
Technology, is soliciting applications for the Doctoral Award for Promising Research in Systems Engineering and Integration. The purpose of this award is to inspire and recognize innovative doctoral-level research related to the field of systems engineering and integration.

In December 2010, the INCOSE Washington Metro Area Chapter established a fund to honor the memory of longtime member James E. Long. The James E. Long Memorial Post-Doctoral Fellowship reflects Jim’s perspective that systems thinking is key to solving the great challenges of our time and addressing the issues and opportunities to come.

Both awards have a grant of 5,000 USD. Submission deadline is May 1 for both awards. Please click here for full details.
