INCOSE Certification Forms

The INCOSE Certification Program will be updating its application forms later this Summer in response to user feedback and updated program guidelines. The last major round of updates was in December 2011. Organizations may re-distribute the forms to their members, including posting on intranet sites, but should periodically check the Certification Forms Page to ensure they are using the latest forms. The Program Office will continue to accept "old" forms for up to 12 months after a newer version is released. Forms prior to December 2011 are no longer accepted. If you would like to provide feedback on the current forms, please send it to mailto:Courtney.Wright@INCOSE.org?subject=INCOSE%20Certification%20Forms%20Comments

INCOSE is pleased to announce the inaugural David Wright INCOSE Leadership Award.

David was devoted to the art and practice of system engineering as a means for solving the great challenges of our planet. He foresaw that success would entail both technical and interpersonal competencies and was an outstanding role model working diligently to help INCOSE become a world leader in this regard. This Award will recognize and encourage INCOSE members who demonstrate similar motivations and competencies. The award will enable them to facilitate synergies between INCOSE and other organizations to pursue expanding the applications of the art and practice of systems engineering for societal benefit.

Applicants must be INCOSE members. Awardees will receive a cash award to allow attendance at other organization's conferences, at INCOSE's International Workshop and International Symposium including appropriate travel expenses for the three meetings. In addition, a qualified Council member will mentor the awardee in their endeavors. The deadline is Nov. 1. 2013
