IS 2014 Las Vegas, Nevada
IS2014 Las Vegas, Nevada, USA from June 30 - July 3
Registration OPEN
Technical Program online- check out our lineup of Keynotes speakers, tutorials and roundtables!
See our website for details: www.incose.org/symp2014

Upcoming Events
Remember to visit the INCOSE website to check the events calendar periodically for updates on calls for papers, early-bird registrations, and other news!

- June 08-11, 2014: CESUN 2014
- June 30- July 03, 2014: INCOSE IS 2014
- October 07-09, 2014: APCOSEC 2014

INCOSE and Stevens to Collaborate on Systems Engineering Research
INCOSE and Stevens Institute of Technology, the legal entity that manages the Systems Engineering Research Center (SERC), a Department of Defense sponsored University Affiliated Research Center, are pleased to announce a joint initiative through which SERC will gather data that supports the research objective of the Helix project - to understand the landscape of the systems engineering workforce.
The INCOSE Foundation gratefully acknowledges a milestone: A recent gift of 70,000 USD from Stevens Institute to support the Stevens Doctoral Award for Promising Research in Systems Engineering and Integration, brings the award fund to 100,000 USD enabling INCOSE to grant 5000 USD scholarships for many years. We look forward to working with Stevens in supporting deserving graduate students who are making significant advances in Systems Engineering and Integration.

**Industry Outreach Board IS 2014**

The Industry Outreach Board is pleased to announce that there will be four industry tracks as part of the Technical Programming at IS2014, 30 June - 3 July in Las Vegas, Nevada.

- Automotive Industry Track
- Biomedical & Healthcare Industry Track
- Energy & Infrastructure Industry Track
- Ground Transportation Industry Track

This year's industry programming focuses on relevant industry themes and challenges - including increasing SE capability and SE competency within these domains; increasing the effectiveness of SE change programs across organizations; re-use and SE-based PLM (product lifecycle management) strategies. Industry Roundtables and working sessions allow industry exchange of current SE practices and approaches to addressing SE challenges.

**Wiley and INCOSE Are Pleased to Announce a Free Publishing Workshop Exclusively for IS 2014 delegates at Green Valley Ranch Resort, Las Vegas, NV, Tuesday 1st July, 10:00 - 12:00**

Would you like to write a paper or a book? Do you want to find out how to get published? Do you have questions around the Peer Review process? Join us at IS 2014 and we'll answer those questions and more...

**APCOSEC 2014**

INCOSE Certification Exam to Transition to SE Handbook Version 4 in 2015
On May 1, 2015, the INCOSE Certification knowledge exam will be based on Systems Engineering Handbook Version 4 (SEHBv4). Until then, INCOSE System Engineering Handbook v3.2 should continue to be used to prepare for the certification exam for CSEP and ASEP. The time between SEHBv4 release and exam updates allows applicants who have already begun studying to continue using currently published materials. It also gives the SEP Program Office time to develop and test new questions.

All questions should be directed to certification@incose.org

INCOSE eNote
INCOSE eNote is a compilation of INCOSE news, event announcements, and items of timely interest to our members. Questions and comments as well as submissions for future eNotes should be directed to enote@incose.org.

All article submissions must be in by the 15th of the month

INSIGHT Schedule

Please see website for more details. http://www.apcose.org/index.php
