SE Handbook Version 4 release and Certification Exam Blackout Dates

The INCOSE SE Handbook version 4 release in early 2015 will be followed on 1 May 2015 by a new version of the Certification knowledge exam. INCOSE Certification candidates who plan to take the knowledge exam in the Spring of 2015 are advised not to schedule their exam between 16 April 2015 and 30 April 2015. During that time period, INCOSE and its testing provider will be updating candidate records to re-assign them to the new exam. Only individuals whose testing eligibility period ends in April 2015 will be allowed to take the exam during that blackout period. To check on your eligibility ID code or its end date, candidates should look for an email received shortly after submitting their individual application and payment. If they cannot locate that email, they may contact the Certification Office for the information.

The INCOSE SE Handbook V. 3.2.2 will continue to be available until 31 December 2014.

Each day during the month of September, the INCOSE Certification Program has published a profile of one of its Systems Engineering Professionals. Go to http://certificationblog.incose.org to learn more about the systems engineering work being done by your INCOSE colleagues.
**Candidates for 2014 November Elections**

Be on the lookout for the Candidate Webinar in October where you have a chance to meet the candidates and voting is November 201th 11 EST, however you must be an active INCOSE member (students cannot vote) as of October 1, 2015 to vote.
