# INCOSE Mission

- INCOSE is a professional society for systems engineers whose mission is to foster the definition, understanding, and practice of world class systems engineering in industry, academia, and government.

<http://www.incose.org/liberty>

# INCOSE Goals

- Provide a focal point for dissemination of systems engineering knowledge
- Promote collaboration in systems engineering education and research
- Establish professional standards for integrity in the practice of systems engineering
- Improve the professional status of all people engaged in the practice of systems engineering
- Encourage support from government and industry for research and educational programs to improve the systems engineering process and its practice

<http://www.incose.org/liberty>

# Membership Benefits

- Network / Collaborate: 5000 experts and practitioners / 30 countries
- Receive Insight, Quarterly Publication
- Receive Systems Engineering, the Journal of INCOSE
- Contribute through INCOSE technical committees
- Download membership directory from the World Wide Web
- Access to INCOSE Connect, the collaborative space for Members Only.
- Post Job Openings and Your Resume.
- Certification Program \$300
