As a Question – Be a Mentor

The goal of this meeting is to discuss a variety of Systems Engineering related topics. Get your questions answered and answer other people's questions. Some example topics are as follows.

- What is Systems Engineering (SE)?
- Requirements definition
- Challenges in SE
- The big picture view
- Six Sigma
- Verification and Validation
- Configuration Management
- Design Reviews
- Testing
- Risk Assessment
- Documentation

- Communication
- Should and Should not in SE
- Good SE practices at your organization
- Bad SE practices at your organization
- Ugly SE practices at your organization
- CMMI (Capability Maturity Model Integration)
- Pitfalls of SE
- How not to screw-up
- What is SE V
- Commercial challenges
- Program management
- Physical design
- Functional definition
- Bring more ideas...
