Dear Member,

This issue of eNote highlights opportunities and resources for the advancement of our professional status as Systems Engineers. These resources include conferences, a professional designation opportunity, information about INCOSE webinars and relevant sponsor messages.

INAUGURAL ISSUE JET

The Journal of Enterprise Transformation (JET) will publish its inaugural issue in January 2011 - submissions are requested by 1st May 2010. JET is a collaboration of INCOSE and IIE.

Scholarship Applications

The INCOSE Foundation is pleased to announce that the application cycle is now open for the 2010 Stevens Institute of Technology and Johns Hopkins Applied Physics Laboratory (JHU/APL) awards. The INCOSE Foundation bestows these awards annually.

The Stevens Institute of Technology Doctoral Award carries a US \$5,000 grant to a doctoral student along with a plaque and recognition at the annual INCOSE International Symposium.

The Johns Hopkins University / Applied Physics Laboratory Alexander Kossiakoff Scholarship, in partnership with the INCOSE Foundation, carries an award of \$5,000, a plaque and recognition at the annual INCOSE International Symposium. The awardee is also offered a paid summer internship at JHU / APL working on relevant systems engineering problems.

Follow these links to learn more about these awards and application procedure. Questions can be submitted to Dr. William Ewald, Chief Executive Officer of the INCOSE Foundation, at William.m.ewald@macrointernational.com, <http://www.incose.org/about/foundation/doctoralaward.aspx>, <http://www.incose.org/about/foundation/doctoralawardjhu.aspx>.

EuSEC 2010

The registration is now open for the European Systems Engineering Conference (EuSEC) 2010, 23-26 May 2010 in Stockholm, Sweden! Please register by 31st March at <http://www.incose.se/eusec2010/registration.htm> in order to receive the early bird discount! The EuSEC 2010 planning committee is looking forward to welcoming you!

INCOSE Version 3.2 of the Systems Engineering Handbook Available on Connect

A new version of the INCOSE Systems Engineering Handbook is now available for download on INCOSE Connect in the Products Area. The primary purpose of the Version 3.2 update was to:

- Bring the handbook into alignment with the latest 2008 version of ISO/IEC 15288 international standard
- Resolve inconsistencies in Version 3.1, primarily in the areas of terminology, figure-to-figure & figure-to-text consistency
- Consolidate related process information throughout the text to remove the multiple treatment of topics
- Minimize impact to the INCOSE CSEP/ASEP certification exam

Version 3.1 of the INCOSE Systems Engineering Handbook remains the sole basis for the INCOSE CSEP/ASEP exam until further notice. An announcement will be made when Version 3.2 can also be used. For planning purposes, an exam update is currently scheduled for late April 2010, after which time both Version 3.1 and 3.2 may be used.
