#### Board Members

I recently sent out a list of proposed questions to solicit information from our membership of how we can ignite a new, and hopefully sustained interest, in INCOSE SFBAC.

I have received a couple of replies with positive support to the idea of a survey to obtain initial information of membership interests.

However, I feel uncomfortable we have an adequate number, and diversity, of questions to be asked. This is because I have a limited vision of the history of our chapter.

Since we are not meeting in December, I would like to propose this as an opportunity to assemble the board to discuss our history, where is our critical mass, what was done in the past to ignite the interest, and how we can provide a knowledge base to solicit active participation.

Can we use December 9<sup>th</sup> as a meeting date for the board members? I realize this may not be a prime period to meet, so if there are alternate suggestions, you have my interest.

Thank You

**David Mason**
