

Subject: [INCOSE San Francisco] INCOSE SFBAC December Meeting and SysML Conference
Date: Wed, 12 Nov 2008 16:32:47 -0800

INCOSE SFBAC will **NOT** be holding a December meeting.

However, the Object Management Group, co-sponsored by INCOSE SFBAC, will be holding a **SysML Conference** December 8th-11th in Santa Clara.

The OMG Systems Modeling Language (OMG SysML™) is a general-purpose graphical modeling language for specifying, analyzing, designing, and verifying complex systems that may include hardware, software, information, personnel, procedures, and facilities. In particular, the language provides graphical representations with a semantic foundation for modeling system requirements, behavior, structure, and parametrics. SysML represents a subset of UML 2 with extensions needed to satisfy the requirements of the UML™ for Systems Engineering RFP.
