

INCOSE 13th Annual International Symposium

Everyone with an interest in Systems Engineering must attend the INCOSE 13th Annual International Symposium to be held 29 June through 3 July in Washington, DC. The Symposium provides:

- Exposure to world class speakers on Systems Engineering
- The opportunity to listen to over 110 juried papers on Systems Engineering in six major technical tracks
- Intensive Tutorials on Systems Engineering
- Exhibits by the leading companies providing Systems Engineering products and services
- The latest information on the roll-out of the INCOSE Systems Engineering Certification Program
- Fellowship and camaraderie with Systems Engineers from around the world
- The chance to combine business with a vacation in Washington, DC over the 4th of July weekend

REGISTER NOW!!!
