A Remarkably Bundled Programme

120 or more quality papers. In the spirit of 'East meeting West', the Host Committee has called for technical papers in native languages, and has received overwhelming response in the form of the Chinese, Japanese and Korean submissions. The papers will be translated and presented in English for the benefit of you and all the other international participants. You can thus look forward to an array of high quality presentations in INCOSE / APCOSE 2009 from several perspectives.

9 Tutorials. These come at no extra charge. You can attend the tutorials in classroom settings that are conducive for learning and allow extensive student interaction with tutorial leaders.

4 Panel Sessions where there will be short presentations that conclude with a statement as the seed for discussions among the delegates.

30 or more Poster Presentations where delegates can meet the authors face to face to discuss aspects of their expositions.

Issue 2, March 2009

INCOSE 2009 Cover Look!

The INCOSE 2009 brochure is available for download this April at www.incose.org/symp2009

东(dōng) means "east" and 西(xī) means "west". When the two characters are used together, 东西 means "east and west"

Registration Opens this April

Look out for the attractively priced registration fees. Delegates shall be able to attend all tutorials at no additional fee.
