  • Group 1) Assessing state of SE practice in transit
    • IT agency personnel are ofetn assigned as Ses
    • Smaller/mid sized rely on heritage provurement docs
    • During program, process responsibilities often on vendors but might be preferred
    • Vendors write interface docs and system sacceptance docs for their own systems
    • Old SW delivery ways are a hinderance, eg FTA guideance doesnt reflect agile
    • Need data for successful vs not successful SE implementations

• Group 2) Agency roadmap for implementing SE
  • Top down approach
  • Strong business case
  • Clear problem statement
  • Create small wins with pilot program to demonstrate value – hand pick the right people to work on it to maximize chances of success
  • Generate ‘Practitioners guide’
  • Agreeing lexicon
  • Educate middle mgmt so they can answer Qs from upper mgmt
  • Can we get SE on the ‘exec agenda’ for the next APTA meeting
    • Can we have TWG members identify middle mgmt who can support their execs ahead of time

• Group 3) Advocacy and outreach to senior management
  • Use TCRP and TOPS group
  • Use screening panels and nominate someone from APTA SE
General announcements

• There is an INCOSE SE conference in Southern California – SF, LA, San Diego, Central and Southern Arizona plus INCOSE student division
  • Los Angeles in April 2016
