

September 2018 Meeting!

Thursday the 27th
Georgia Tech Research Institute
Atlanta, Georgia

“INCOSE IS 2018 Review”

Dave Takacs

Lockheed Martin Aeronautics Company

INCOSE Atlanta Chapter President

Abstract

Dave Takacs, President of the Atlanta Chapter, attended the International Symposium (IS) in July. Dave will present a summary of the symposium to bring the rest of the membership up to speed on the SE state of the art, and what INCOSE is up to at the International level. This presentation will include synopses of plenary topics/presentations and technical paper summaries. The IS contained a tremendous compendium of topics and Dave will concentrate on MBSE, Agile SE, and the vision for SE of the future.

Speaker Bio

Dave Takacs is a Systems Engineer for the Air Mobility and Maritime Missions (AMMM) line of business at Lockheed Martin Aeronautics Company in Marietta, Georgia. Dave has worked as a Systems Engineer on the C-130, C-5, P-3, F-22, YF-23, NATF, A-12, and F/A-18 aircraft programs during his 38 year career in Aerospace. He is a graduate of Georgia Tech with an undergraduate Bachelor of Science degree in Industrial Management. He earned an MBA from Lindenwood University in St. Charles, Missouri, and a Graduate Certificate in Systems Engineering from Southern Polytechnic State University (now KSU) in Marietta, Georgia. He earned an Advanced Level in the Lockheed Martin Systems Engineering Development and Qualification Program (SEDQP), and is an INCOSE ESEP.
