

## Corporate Advisory Board (CAB)

## CAB Member Companies

### CAB Members are the Customer Voice to INCOSE Leadership

*The CAB, helps INCOSE to:*

- See important systems engineering challenges facing industry and government face: autonomous systems, healthcare systems, agile life-cycle development, systems security, and sustainability
- Shape INCOSE's strategic direction—identifying and prioritizing the best ways to advance the discipline of systems engineering in industry, science, and academia
- Support and mentor INCOSE's more than 55 working groups with recommendations for products and determining priorities

- Have an opportunity to guide the direction of systems engineering
- Provide employees access to the state-of-the-art products developed by INCOSE working groups
- Network with industry leaders and see how they use systems engineering to solve business problems
- Gain better access to talent—find and hire competent, certified Systems Engineers

# INCOSE Provides CAB Associate Member Benefits

## Including Soft Copies of:

- Product Previews
- eNote
- eNewsletter
- INSIGHT
- Systems Engineering Journal
- Past Symposia Papers and Proceedings
- Technical Products at no charge
- SE Handbook

## Access to:

- SE Tools Database (SETDB)
- Technical Positions (Public)
- Online Tutorials
- Webinars (Informational)
- Systems Exchange Cafes, every 2 weeks with Topics of the Month

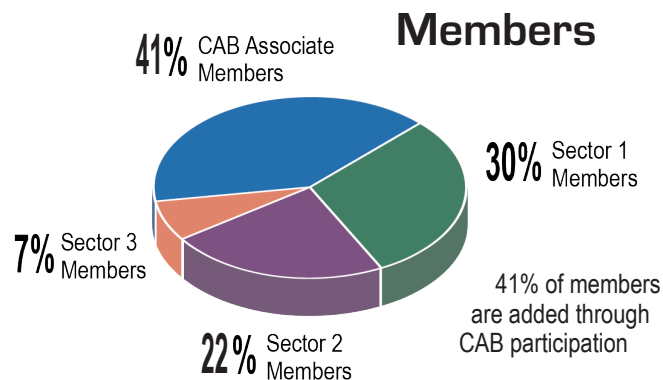

## Some Current CAB Members

*I believe Systems Engineering is an important instrument on the path towards technological development in which multidisciplinary knowledge is transformed into solutions aiming to improve productivity and solve complex problems. I am proud of being part of this, as a bridge between my organization and INCOSE, participating as a CAB representative."*

*Claudia A. Tocantins, MSc, PMP, Diretoria de Produção Defesa*

**Donald M. York, PhD, PE, CSEP, SAIC Fellow**  
 INCOSE, the International Council on Systems Engineering, is the professional society solely devoted to the promotion, application, and enhancement of the systems engineering discipline and profession. Considered the world's authority on systems engineering, INCOSE and its senior leadership rely on the experience, advice, and wisdom of seasoned practitioners from more than 100 organizations that form its Corporate Advisory Board (CAB). INCOSE leadership looks to the CAB for the strategic viewpoint gained by experience and hard-won wisdom—the kind that comes from practicing sustainable systems engineering in complex, critical, and ever-evolving environments.
