INCOSE

SE in SC

The Charleston Lowcountry Chapter of INCOSE invites members and guests to attend our virtual meetings. Join us for networking opportunities and presentations on Systems Engineering.

JUNE 2020

Thursday, 18 June (1630):
There is No Such Thing as Non-Model-Based Systems Engineering
by Zane Scott, Vitech Corporation

RSVP to receive the Zoom Meeting Invite

Presentation: Models are the basis of all communication and thinking. As we form ideas we think in models. As we communicate our ideas to others and absorb their thoughts, the communication is done in models. Successful communication rides on making those models match so that the ideas are accurately passed among us. The issue is not whether we use models but where those are kept. The presentation will address how we use models, where we keep and maintain them in order to promote efficient communication and how we can most efficiently and effectively communicate them.

Speaker: Mr. Scott is the VP for Professional Services at Vitech Corporation. For the past 25 years, Zane has built a skill set which enables him to provide insight and guidance to individuals and companies as they improve organizational processes and methodologies across their organizations. Zane has also taught systems engineering methodology in the practical process context in a variety of settings. A member of the Chesapeake Chapter, Zane has just finished his terms as the Chair of INCOSE's Corporate Advisory Board and as a member of the Board of Directors. He is a member of the Technical Leadership Institute and participates in several INCOSE Working Groups. Zane is a frequent presenter, teacher and blogger and, with his co-author Dave Waldon, was the winner of a Best Paper Award at 2016 IS. With an academic and professional background in Economics and Law, he offers some unique perspectives on the SE world.

Need to earn PDUs?
Attending a Chapter technical presentation can help!
• CSEPS can earn 1 PDU
• PEs can earn up to 1 PDU
