

# Writing Effective Requirements

## INCOSE Meeting

International Council on Systems Engineering • Cleveland Chapter • Region IV

Tuesday  
May  
17<sup>th</sup>

All Welcome • Member Meeting • 3<sup>rd</sup> Tuesday of the Month

# Chapter Meeting

**Who:** INCOSE Cleveland-Northern Ohio Chapter

**What:** Open meeting with a special topic

**When:** Tuesday, May 17<sup>th</sup>

Registration begins @ 5:45 PM

**Where:** Holiday Inn, Cleveland OH (W.150 & I-71)

**Guest Speaker:** Joel Knapp @ 6:15 PM

### Meeting Topic:

***Requirements management using Structured Software Systems Ltd's Cradle on the Constellation Program.***

### Abstract for the presentation:

The Constellation Program utilized Cradle as the authoritative source for managing the requirement set for the different parts of the architecture (Orion, Ares, Altair, etc). The Process and Interface Management Office was responsible for developing the processes and tools which allowed the effective management of the requirements to occur. This presentation will discuss some of the different elements related to how this was done.

Joel Knapp works for QinetiQ-NA as a Systems Engineer for the past seven (20) years, at the NASA Glenn Research Center in various capacities supporting a number of spaceflight projects.

As always, this is an open meeting; a free dinner is raffled to those who RSVP'd and who are in attendance; a free dinner will be awarded to one lucky sole. For INCOSE members to RSVP you will need to log into the INCOSE Connect site and click here for the survey.

The meeting will also be available as a Live Meeting, [click here](#) for the broadcasted presentation. For the meeting's audio, please call 1-800-375-2612 and use a participant code of 893334.

**Note:** The INCOSE members and non-members are all welcome to the local chapter meetings in the Cleveland Metropolitan area. The meetings are **free** and **open** to the public. For those in attendance, food and beverage purchases may be made. For non-members, if you are planning to attend, a non-binding RSVP is most helpful; email [Anthony.Rus@Gmail.com](mailto:Anthony.Rus@Gmail.com)
