

INCOSE Systems Engineering Professional Certification Program

January 26, 2021

Please register via Eventbrite, or see <http://www.incose.org/cleveland>

6:00 PM EST

Virtual – Online Meeting

(Connection information will be available to registrants on Eventbrite)

Speaker: Courtney Wright, INCOSE Certification Program Manager

Guest Speaker: Joel Knapp, C-NO Chapter Member and Certified Systems Engineering Professional (CSEP)

Abstract: All current chapter members, and those interested in INCOSE membership, are invited to attend the January 26 C-NO Chapter Meeting covering the INCOSE SE Professional Certification Program. Last year's chapter survey indicated strong interest in the certification program: what it is, benefits to the holder of a certification, benefits to organizations that employ SE professionals, and paths to obtaining certification.

We invite those interested to submit questions about certification until Thursday, January 21, at which time they will be consolidated and sent to the speakers to help guide their presentations toward our interests. Questions may be directed to Marian at northohioincose@gmail.com.

We hope that you can join us!
