ENTERPRISE EXCELLENCE

True, True North

- Our Vision
- Clarity of Purpose
- The Organizational Framework

- ...to achieve the best results.
- In delivering value to the customer

- Ideal behavior in how we execute the work throughout the organization
- The systems we establish to enforce this behavior

HOW UNITED TURNED THE FRIENDLY SKIES INTO A FLYING HELLSCAPE

bit.ly/unfriendly_skies

UNITED AND OTHER AIRLINES OVERBOOK FLIGHTS BECAUSE IT (USUALLY) PAYS OFF

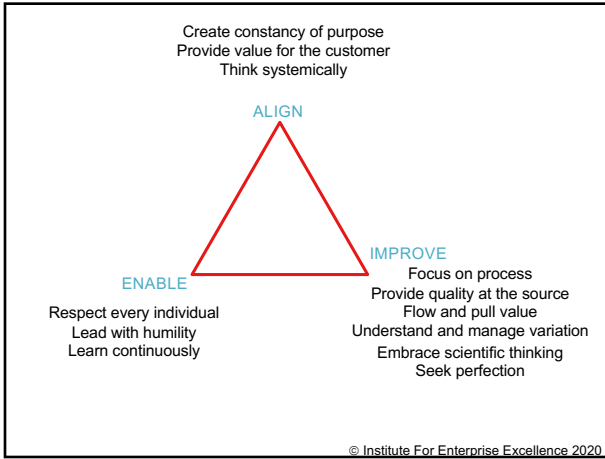

ABC 7 Chicago
Dr. David Dao, who was dragged off a United Airlines flight at Chicago International Airport two years ago, is speaking out for the first time about the incident.

Dr. David Dao, dragged off United Airlines flight at O'Hare in Chicago International Airport two years ago, is speaking out for the first time about the incident.

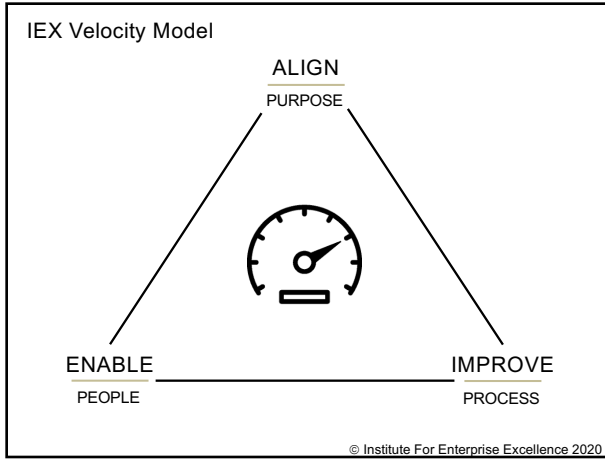

\$140 M settlement

Another way to look at systems (and a vocabulary to match)

- A **system** is a network governed by constraints that create coherence.
- An **agent** is anything which acts within the system (individual, group, idea, etc.)
- Three types of systems:
 - **Ordered**: fully constrained behavior, predictable and repeatable.
 - **Chaotic**: random, unconstrained, difficult to create or sustain.
 - **Complex**: system partially constrains behavior, but behavior modifies constraints.

Cognitive Edge

13

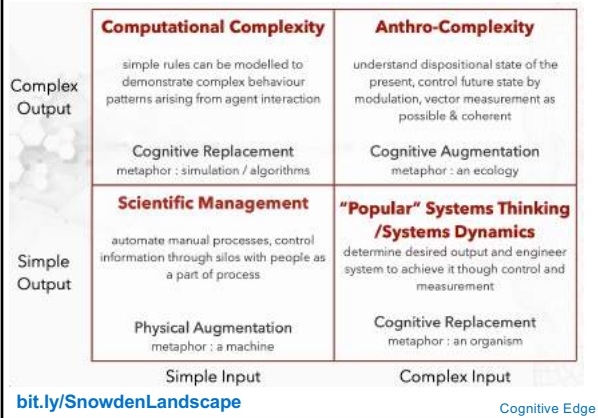

Attributes of these system types

17

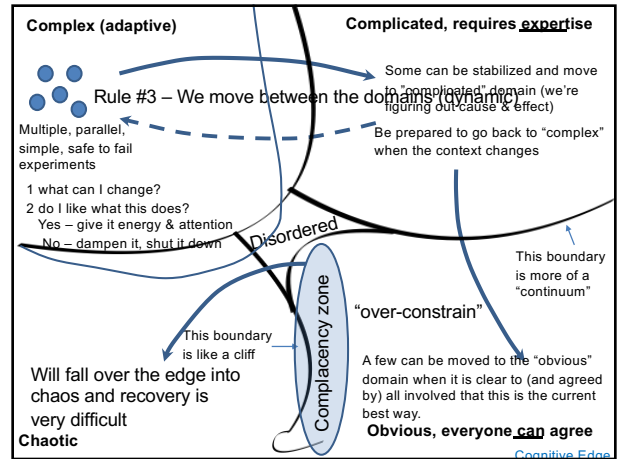

Complex (and messy) situations to consider – Overview of Cynefin Framework

18

19

20

Context matters, different problems require different knowledge

Skills alone will not suffice

Copy at your own risk

You cannot scale (copy) one person’s (group’s) solution to a complex problem

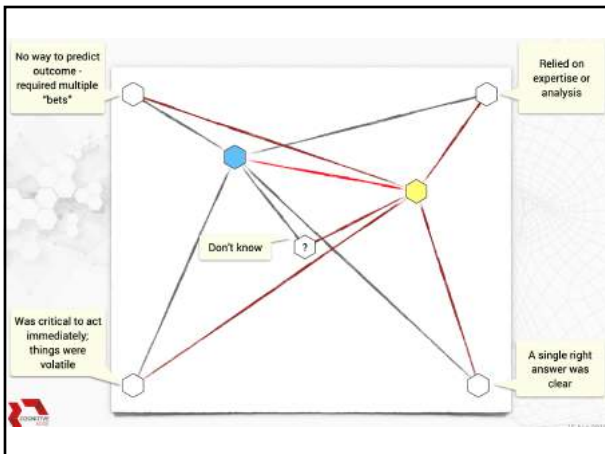

Eliminating the “tool-based trap” may not be possible ... but perhaps we can recognize we are in it sooner, and adjust accordingly

21

- Table Exercise:
- Form groups of about 5-7 people.
 - Each person - recall several experiences you have had, or have heard about, with healthcare that concerned you, or gave you confidence in the quality of care care being delivered. Each person makes a list of these examples. Don't share yet.
 - Each person – using two colors of post-it notes & sharpie pen:
 - For each healthcare experience, write out the DECISIONS MADE BY PATIENT OR FAMILY on one color of post-it note.
 - Using the other post-it note color, repeat the above for DECISIONS MADE BY HEALTHCARE PRACTITIONER (doctor, nurse, medical staff, for each experience).
 - Place all of the post-it notes in the center of the flip chart sheet.
