

Please join us on the next INCOSE Webinar

When

Wednesday 18 August 2021 from 11:00am-12:00pm EDT
(3:00pm-4:00pm UTC)

Topic

Need help with Requirements? What you need to know,
about the upcoming Requirements Manual and Guides from
INCOSE.

Speaker

Raymond Wolfgang

Abstract

Do you have questions, on how to develop, manage, and verify requirements for your technical project? Several new guides from INCOSE, from the Requirements Working Group - will help! This presentation will provide an update on the three major new documents - from the "INCOSE Requirements Working Group: the Guide to Needs and Requirements", the "Guide to Verification and Validation", and the "capstone document the Needs, Requirements, Verification and Validation Lifecycle Manual". This talk will share the evolution of the guides and manual, describe some of the paradigm shifts that the documents invite us to consider, and conclude with introducing the Outline of the Manual. After this presentation you will know where to get the answers to your needs and requirements questions: needs identification and elicitation, requirements authorship, development, V&V, and requirements management questions.

Biography

Raymond Wolfgang brings his unique requirements and V&V expertise to a host of national systems in his role as a Systems Engineer at Sandia National Laboratories in Albuquerque, New Mexico, USA. He has led requirements authorship and analysis for several programs, deployed several process improvement initiatives in requirements management, and currently leads an effort to complete a large program's use case portfolio. Before Sandia, while working for the US Navy, Raymond managed installation requirements for a critical ship-board technology refresh and served as a Systems and Electrical engineer on several research and development programs. His INCOSE papers focus on requirements state-of-practice, and the training he develops and brings into his workplace gives systems engineers the basics of what they need to know, to succeed in their roles. A graduate of both Purdue and Penn State Universities, Raymond currently participates in the INCOSE Technical Leadership Institute.

Our Sponsor for 2021:

How to Connect

IMPORTANT—WEBINAR MOVE TO ZOOM PLATFORM

We have moved to the ZOOM platform for INCOSE webinars. One significant change is we recommend attendees join audio now using the ZOOM platform audio (Voice over Internet).

Register in advance for this webinar at:

https://incose-org.zoom.us/webinar/register/WN_z_d0niSJSiZmj5db7llw

After registering, you will receive a confirmation email containing information about joining the webinar.

You will also find a copy of the joining instructions on the INCOSE Connect website, at:

<https://connect.incose.org/Library/Webinars/Pages/INCOSE-Webinars.aspx>

Notice

Please note that you can now access the webinar using mobile devices. There are 500 virtual seats available for the webinar. Currently they are available on a first-come, first-served basis.

Zoom can be used to record meetings. By participating in this meeting, you agree that your communications may be monitored or recorded at any time during the meeting.

Missed the Webinar?

If you miss the webinar, you will be able to see a recording of it on INCOSE Connect at <https://connect.incose.org/Library/Webinars/Pages/INCOSE-Webinars.aspx> where you will also be able to view the previous one hundred and fifty-one INCOSE webinars.

Please note you can now receive a PDU supporting certification renewal by attending an INCOSE technical webinar. Here is the link to details about certification renewal, including information on PDUs.
