

# CALL FOR CHAPTERS:

## “EMERGING TRENDS IN SYSTEMS ENGINEERING LEADERSHIP”

We're writing a book!

This is a call for chapters for a new addition to the Springer's Women in Engineering and Science book series focused on women's accomplishments in Systems Engineering fields.

This volume is dedicated to sharing women's research, achievements, perspectives, and successes in systems engineering leadership in emerging areas, including empowerment, equity, diversity, inclusion, and mentoring, and in industry, government, and academia across the globe!

Co-authoring and collaborating are encouraged!

You can highlight and celebrate the efforts of women in our international systems engineering community by authoring or co-authoring a chapter or becoming a contributor or reviewer!

### Chapter Requirements

- Female chapter authors
- Chapters may be written by individuals or co-authored
- Anyone can serve as a contributor or reviewer and will be acknowledged

**Abstracts Due:**

**March 31, 2020**

---

**Annotated Outlines Due:**

**June 30, 2020**
