

The Southern New Jersey Professional Societies

Presents:

"Army Cyber Institute (ACI) Overview and Current Initiatives" **Chris Hartley Deputy Director, ACI and CW3 Judy Esquibel, ACI Research Scientist**

ACI is a national strategic initiatives group for cyber issues affecting the Army. Its broad national charter is to conduct outreach among the Army, government, academia,

public and private sector at the tactical, operational, and strategic levels. Reporting directly to the Superintendent of the United States Military Academy (USMA) at West Point, the ACI develops intellectual capital with subject matter experts to expand the cyber knowledge base for Army defense and operations. This cyber focus will help the nation to outmaneuver its adversaries in cyberspace and bridge gaps to promote information exchange across the Army, government, academia, public and private sector. The ACI is a national resource for research, advice, and education in the cyber domain, engaging military, government, academic, and industrial cyber communities in impactful partnerships to build intellectual capital and expand the knowledge base for the purpose of enabling effective Army cyber defense and cyber operations.

Wednesday, October 18, 2017
