Sponsored by the FAA William J. Hughes Technical Center

About the Summit

The V&V Summit will include speakers and discussions addressing innovative methods and strategies that embrace V&V philosophies and principles critical to moving the next generation air transportation system (NextGen) initiatives forward. Key objectives of the summit are:

- Foster a V&V best practices and corporate V&V philosophy
- Explore new and practical ways to apply V&V that better support acquisitions and decision making
- Promote V&V disciplines and culture
- Highlight "real world" ways to incorporate V&V into organizational operations

Who Should Attend

- Managers and executives involved with or dependent on V&V
- T&E engineers/specialists, system engineers, and research and development practitioners
- Acquisition stakeholder involved with or relying on quality V&V
