## **When**

**Wednesday December 6<sup>th</sup> 2017 from 11:00am-12:00pm EST**

## **Topic**

**Digital Artifacts Challenge Team**

## **Speaker**

**Frank Salvatore**

---

## Abstract

At the INCOSE 2017 International Workshop it became apparent that the Systems Engineering community needs to establish an accepted set of Digital Artifacts to help Systems Engineering transform to a more model based discipline. The INCOSE SE Transformation Team and the MBSE Initiative were asked to stand up a more enduring “Digital Artifacts” effort. INCOSE recommended standing up a Digital Artifacts Challenge Team and requested a Charter for the Team.

The Digital Artifacts Challenge Team will advance the understanding and acceptance of a finite set of Digital Artifacts that industry can institutionalize. As the team identifies Digital Artifacts they will be defined and described in a precise format that can be used to capture and communicate them. The intent is to understand not only what project support engineering activities must provide, but also to agree upon the Digital Artifact content that is needed to properly form a Digital Artifact. Given a defined Digital Artifact this challenge team may also work towards establishing methods for, protection of them, and assurance that they are trusted for their intended use.

This webinar is to define the Digital Artifact Challenge objectives and to seek participants to join the Digital Artifact Challenge Team.

## Biography

Frank is a Senior Systems Engineer and Technical Fellow in the area of Model Based Systems Engineering (MBSE) for Engility Corporation. Frank is a leading member of their Systems Engineering Community of Practice and heads up the MBSE Community of Interest. Frank has been a consultant for Engility since 1999 providing various degrees of Systems Engineering support to the US Army, the Office Under the Secretary of Defense, and the Navy. From 1987 thru 1999 Frank worked for the US Army and ITT industries providing a variety of systems engineering support for the development of Army Smart Munitions, the GPS navigation payload program, and the Software Programmable Radio. Frank is an Expert Systems Engineering Professional (ESEP), an OMG Certified Systems Modeling Professional (OCSMP), and Six Sigma Green Belt. Frank is also a member of INCOSE, is the President of the Liberty Chapter and Chairperson of the Decision Analysis Working Group. Frank Salvatore received his BS in EE from the New Jersey Institute of Technology and his MS in CS from the American University.

**Guest Pass Code:** 434 812 4177

Questions? Go to [GlobalMeet Support](#)

You will also find a copy of the joining instructions on the new INCOSE Connect website, at

<https://connect.incose.org/Library/Webinars/Pages/INCOSE-Webinars.aspx>

## Notice

Note that the webinar is a combination of PowerPoint slides + audio. You need to set your browser to the url listed below to see the slides and also dial into the phone number below to hear the audio. We are using Webex for this webinar. Please note that you can now access the webinar using mobile devices. There are 500 virtual seats available for the webinar. Right now they are available on a first-come, first-served basis.

Webex can be used to record meetings. By participating in this meeting, you agree that your communications may be monitored or recorded at any time during the meeting.

## Missed the webinar?

If you miss the webinar, you will be able to see a recording of it on INCOSE Connect at <https://connect.incose.org/Library/Webinars/Pages/INCOSE-Webinars.aspx> where you will also be able to view the previous one hundred and six INCOSE webinars.

Please note that you can now receive a PDU in support of certification renewal by attending an INCOSE technical webinar. Here is the link to details about certification renewal, including information on PDUs.
