

EMEASEC2026 CALL FOR SUBMISSIONS

EMEASEC2026: Bringing human aspects in the center of engineering

The Europe, Middle East, and Africa (EMEA) sector of INCOSE is delighted to host the EMEA Systems Engineering Conference (EMEASEC) at the Linköping Konsert & Kongress in Linköping, Sweden, from **31 August to 2 September 2026**.

Tutorials, workshops, and business meetings will take place at Linköping University on **29-30 August 2026**.

Conference Theme

Inspired by the key role Systems Engineering plays in the development of complex systems, and considering the directions emerging with the Industry and Society 5.0, this conference will focus on integrating human aspects—ensuring that technical, organizational, and human elements are appropriately addressed throughout the lifecycle of systems, services, and enterprise systems.

We would like to invite individuals and organizations to submit novel content that broadly aligns with the event theme and any other relevant topics related to systems engineering, by the due dates below:

- Tutorials and business meetings **submissions due 16 January 2026**
- Papers, paperless presentations, and panels **submissions due 20 March 2026**

INCOSE Event Submission Preparation Guides:

- [Paper Preparation Guidelines](#)
- [Panel / Roundtable / Debate Preparation Guidelines](#)
- [Tutorial Preparation Guidelines](#)
- [Paperless Presentation Preparation Guidelines](#)

For Submission Templates & Review Guides, please visit:

<https://www.incose.org/publications/proceedings>

Submit your Paper, Panel, Tutorial and/or Paperless Presentation on [EasyChair](#).

The Technical Program Committee will review the submitted content and provide a decision on acceptance into the EMEASEC program by 10 May 2026.

For ASEP and CSEP holders, you may claim Professional Development Units (PDUs) for submissions to as well as for attending EMEASEC.
