

EMEA WSEC 2023

Europe, Middle East, Africa

HYBRID EVENT

Workshop and Conference
Sevilla, Spain - 24-26 April, 2023

Welcome

In the name of the EMEA WSEC 2023 organizing committee, I want to express my sincere welcome to the annual conference and workshop 2023 of INCOSE EMEA in Sevilla, Spain.

Moreover, I hope the event will provide an effective forum for academicians, researchers, and practitioners to advance knowledge, research, and technology for humanity. Inspired by the vital role that Systems Engineering can play in achieving the United Nations Sustainable Development Goals (UN SDGs), targeting Societal Challenges, and focusing on highly complex/chaotic systems aligned with the INCOSE Vision 2035 for a better world. Therefore, the focal drive of this conference is to exchange ideas. By participating in this exchange, it is hoped that all parties who may benefit from the conference can apply it in the activities in their areas. It is pleasing to note that the agenda of this conference covers a wide range of exciting topics related to all theoretical and practical aspects, including but not limited to Systems Engineering in a Sustainable World. We are creating a better world for all of us through Systems Engineering!

Anabel Fraga
EMEA WSEC 2023 Chair

Call for content

Inspired by the key role Systems Engineering can play in achieving the United Nations Sustainable Development Goals (UN SDGs), targeting Societal Challenges and focusing on highly complex/chaotic systems aligned with the INCOSE Vision 2035 for a better world.

The theme for EMEA WSEC is « Engineering a Sustainable World »

January 24, 2023

Paperless Presentations

January 24, 2023

Acceptance Notification

(Paper/Panel/Tutorial/Paperless Presentation)

February 28, 2023

Acceptance Notification (Workshop)

End of March, 2023

About Sevilla

Sevilla is a synthesis of the world, a city that embraces the Guadalquivir river to open up to an unfathomable landscape. From the Cathedral to the Setas, from the Cartuja Monastery to the Casa de Pilatos, from the Antiquarium to the Palacio de Dueñas, Sevilla streets and squares are a trail of culture, heritage, history and good stories.

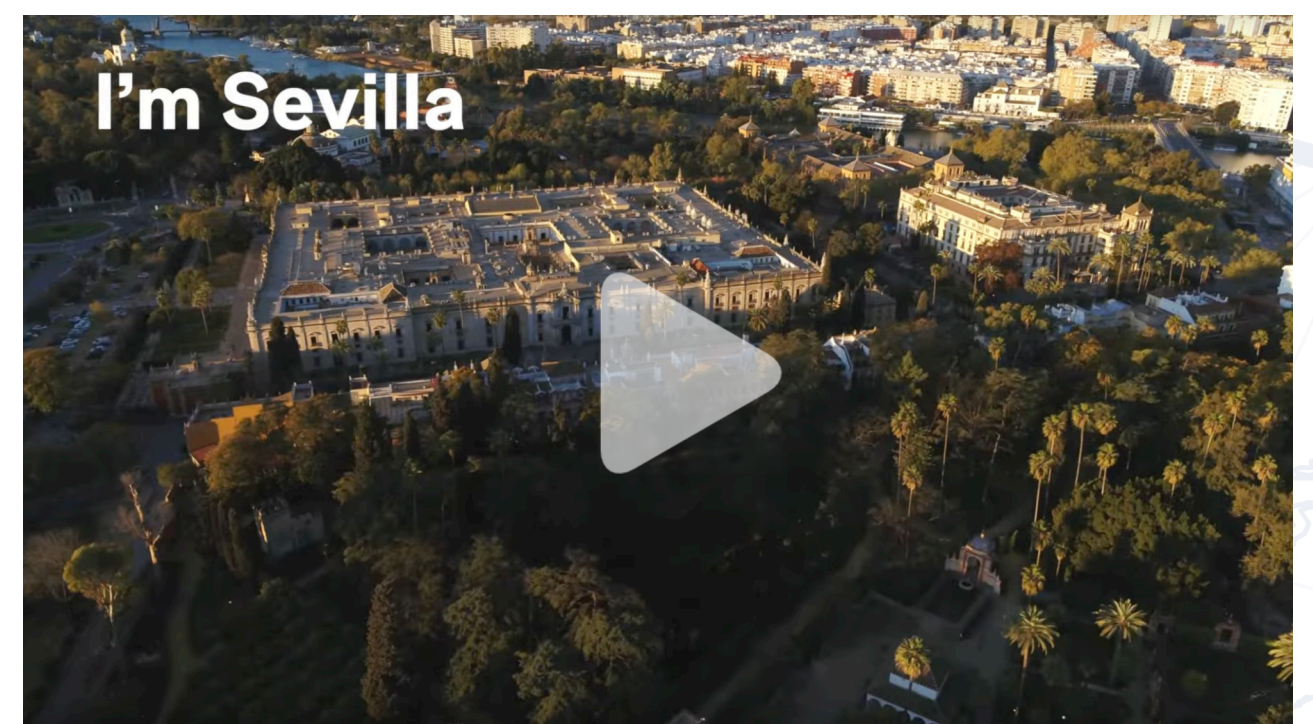

Many consider Sevilla the most beautiful city in both Andalusia and Spain. It's not surprising, with all the Arab influences, the narrow alleys, the parks and the great historic center (Barrio Santa Cruz). Sevilla is also considered the birthplace of flamenco, dance and typical Spanish.

Special event from 23 to 29 April 2023 Feria de Abril de Sevilla

The Feria de Abril is one of the biggest popular events that take place every year in Spain.

For a week, the Feria is animated by bullfighting games, numerous concerts, a funfair, horse parades, Flamenco dance shows and fireworks complete this fair as an appointment where it is impossible not to succumb to the Sevillian heat!
