

32nd Annual **INCOSE**
international symposium

hybrid event

Detroit, MI, USA

June 25 - 30, 2022

Call for (paperless) Presentations

The INCOSE International Symposium is the premier international forum for systems engineering and systems approaches. Participants network, share ideas, knowledge and practices, and learn more about the most recent innovations, trends, experiences and issues in all aspects of systems engineering from world-class thought leaders in the field.

The theme for the INCOSE International Symposium 2022 is:

The Power of Connection

This theme reflects the greater dependencies in today's technology as evidenced by Industry 4.0 and the impact on society as embodied in Society 5.0. For systems engineers, the power of connection also represents the interrelationships throughout the engineering lifecycle, interrelationships that must be reconceptualized in the transformation to Digital Engineering. As highlighted by the global pandemic and our transition first to virtual then to hybrid, the power of connection reflects new ways of working and evolving societal needs.

INCOSE encourages submissions for paperless presentations on the following (including but not limited to):

Domains include but are not limited to:

- Transportation, Automotive, and Mobility
- Automation and Smart Cities
- Aerospace and Defense
- Cybersecurity
- Energy and Environment
- Healthcare and Biomedical
- Sustainable Technologies
- Information & Technology
- Education & Training
- Socio-economics

Emphasis Areas include but are not limited to:

- Autonomous Systems Critical Infrastructure
- Digital Engineering
- Emerging Technologies
- Engineering Management
- Innovative Approaches: Agile, Iterative and Lean
- Industry 4.0 and Society 5.0
- Global Environmental Sustainment
- Systems of Systems (SoS)
- Systems Modernization Systems
- Resilience, Reliability, Safety Systems Security Engineering
- Socio-economic Sustainment

Key Dates

Submission Deadline:
Acceptance Notification:

February 15, 2022
March 31, 2022

Call for Paperless Presentation

Paperless presentations (or just “presentations”) provide the opportunity for practitioners to share their work, novel approaches, or interesting problems addressed without writing a formal paper. Sessions are 40 minutes: 30 minutes for presentation with 10 minutes for Q&A.

Submissions for presentations consist of an abstract of no more than 1000 words. The submission should include the following elements:

- Provide an overview of the topic
- Clearly identify specific related industries
- Provide the benefits the audience will take away from the presentation
- Provide background on the presenter and his/her qualifications to provide the talk

Each submittal will be reviewed by at least 2 members of the INCOSE review team. The Preparation Guidelines and the Evaluation Criteria for Paperless Presentation abstracts, can be found at the symposium website:

<http://www.incose.org/symp2022/downloads>

The Paperless presentations Submission website:

<https://easychair.org/conferences/?conf=is2022presentations>

Please note that accepted presentations are not included in the Proceedings of the Symposium and in the Wiley Online Proceedings Library. However, presentations will be posted on the INCOSE Paper and Presentation Library.

Note: Accepted paper presenters are still required to register for IS2022; please see website for registration costs.
