WG PURPOSE/MISSION

Bring awareness of the importance of soft-skills in the effectiveness and career development of systems engineers, and all engineers. Then augment that with developing a library of resources to help an engineer develop their soft-skills

WG GOAL(S)

Current goal is to get established, connect with the other WGs that have interests with soft-skills, and develop some products quickly to demonstrate the value that this WG can bring to engineers, the organizations that they work for, and INCOSE.

WG SCOPE

The scope ranges from one-on-one coaching to professors interested in creating education programs for their universities and corporations. As we begin, the scope of the group is to work on efforts that are attainable.
