 Charter Summary

WG PURPOSE/MISSION

The Transportation Working Group (TWG) seeks to advocate for and facilitate a continuous improvement of planning and engineering decisions made within the Ground Transportation sector over the entire system life-cycle and deliver 21st Century Transportation Systems that providers and users need through the pragmatic application of Systems Engineering practice on three levels:
1) Executive - Shaping Policy & Public Sentiment 2) System - Improved Acquisition 3) Operational - Better Inform

WG GOAL(S)

- Promote and develop a community of competent Transportation SE Practitioners
- Develop papers to be presented during International Symposium and Workshops
- Develop work products facilitating SE practice tailored for Ground Transportation
- Maintain interest in SE practice through regular, periodic presentations and meetings
- Establish working relations with other professional organizations such as APTA or AREMA
- Propagate SE practice throughout disparate stakeholder groups, such as procurement, legal

WG SCOPE

Based on the approach of current industry procurement practices, Ground Transportation is effectively a subsidiary sector of Infrastructure in most large transportation projects and programs:
