Feedback of FuSE Concept B

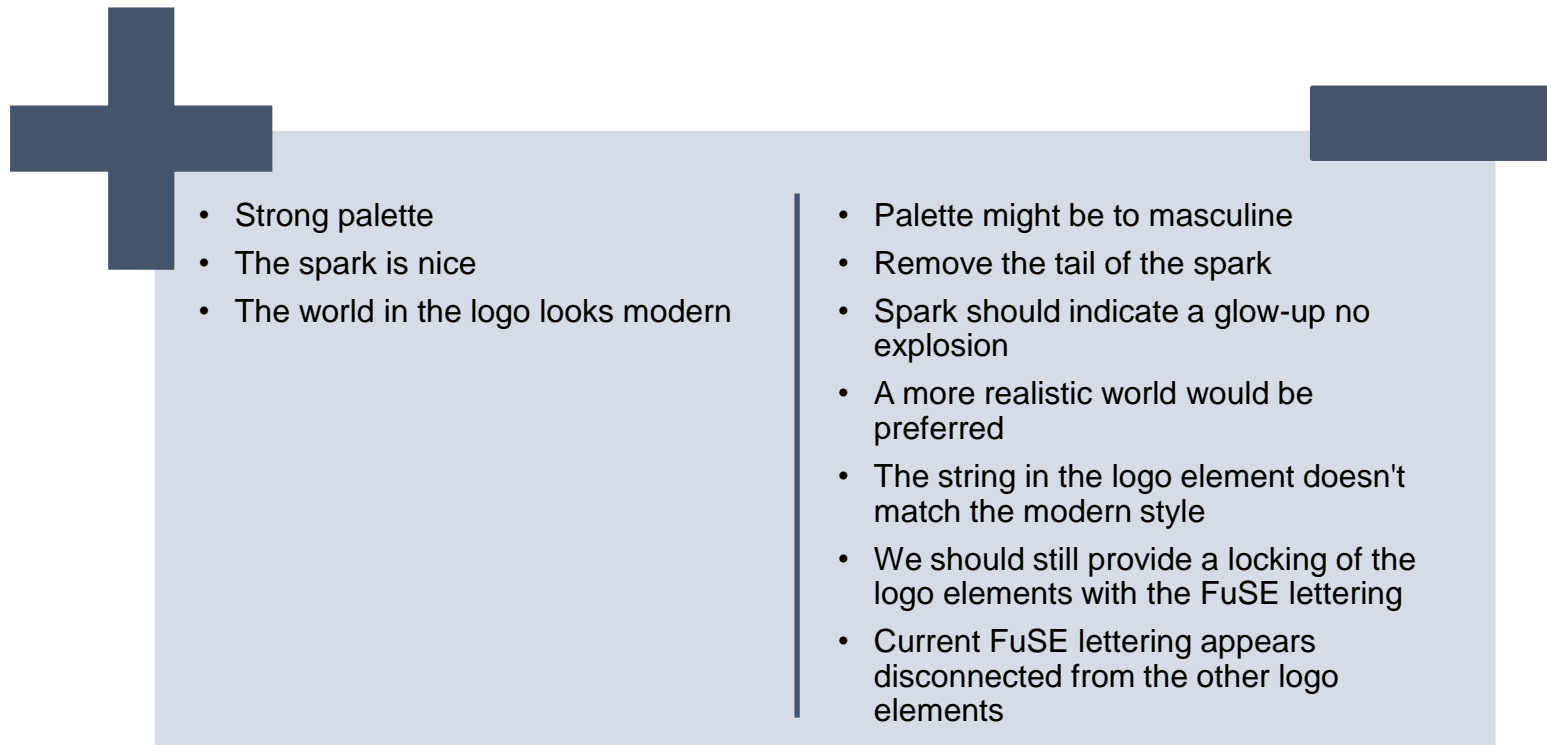

Miro Documentation

Feedback on FuSE Concept B

Summary

The new FuSE Branding should be introduced at the end of IW.

<ul style="list-style-type: none"> • Strong palette • The spark is nice • The world in the logo looks modern 	<ul style="list-style-type: none"> • Palette might be too masculine • Remove the tail of the spark • Spark should indicate a glow-up not explosion • A more realistic world would be preferred • The string in the logo element doesn't match the modern style • We should still provide a locking of the logo elements with the FuSE lettering • Current FuSE lettering appears disconnected from the other logo elements
---	---

Public collection 16 generations

Ensure we enlighten the world, not blow it up

like how the
globe glows

Too messy

...the guilt?

Like the whole world geography

don't look
informative

Excitantly
not!

"Love and compassion
go hand in hand."

Press Release.

FuSE Press release

Miro documentation

INCOSE → → → → Press Release

As similar to IW send out - only provide press release to outreach list

The International Council on Systems Engineering Launches the Future of Systems Engineering (FuSE) Initiative to Deliver the SE Vision 2035

SAN DIEGO (December 2022)—The International Council on Systems Engineering (INCOSE) is pleased to announce the launch of latest Future for Systems Engineering (FuSE) Initiative to deliver the Systems Engineering Vision 2035. The aim of this initiative is to develop the roadmap that achieves the goals outlined in the SE Vision 2035.

The goal of this initiative is to inspire the global community to realize the Vision of Systems Engineering. The INCOSE Leadership team is focused on driving this forward, starting with the annual [INCOSE International Workshop \(IW\) in 2023](#) which will focus on FuSE along with the usual working group activities of planning products, revising charters, and updating webpages.

Ralf Hartmann, INCOSE President-Elect says: "With the SE Vision 2035 we have given to the world and to ourselves an extraordinary piece of inspiration and ambition for the future. We have raised the bar significantly for the global SE community and for INCOSE as an organization. Therefore, we are now strongly increasing our efforts through the 'Future of Systems Engineering' initiative helping us to live up to this expectation. Of course, this is a challenge which needs to be addressed together with strong global partners from all domains. To get these collaborations in place will be the initial challenge to be mastered. I am really happy that we were able to get an outstanding leadership team together to act as key thought leaders for the FuSE initiative."

The FuSE emphasis at the International Workshop consists of four streams:

Systems Engineering Vision & Roadmaps Stream. The systems engineering vision and roadmaps stream continuously refines, evolves, and complements the SE Vision 2035. Furthermore, we create an integrated set of roadmaps across the four FuSE streams. The goal at IW2023 is to frame the structural relationships and value models to support the roadmaps creation.

Systems Engineering Foundations stream. The foundations stream identifies gaps to determine future directions. Special consideration will be given to the theoretical foundation of SE as a discipline on the one hand and the practical application foundations using principles and heuristics on the other.

Systems Engineering Methodologies stream. The SE methodology stream guides the advancement of practices, methods, and tools for the effective engineering of systems to be fit for purpose in the presence of varying scale, interrelatedness, complexity, non-determinism, and emerging technology innovations such as AI and agility.

Systems Engineering Application Extensions Stream. The SE application extensions stream integrates social sciences, soft systems, and initiatives such as Smart Cities to address grand challenges to meet human and societal needs as stated in the United Nations Sustainable Development Goals.

INCOSE Media Contact:—Honor Lind, Director for Marketing and Communications, marcom@incose.net, Call INCOSE at 1-858-541-1752 or visit www.incose.org.

INCOSE → → → → Press Release → → → ¶

FuSE maps the five Systems Engineering Vision 2035 categories to the four FuSE streams in the following ways:

Not aligned with the team, so rather delete it from the press release

al-branch) and Methodology streams.¶
al-branch).¶
logy stream for tools and application stream for the-
stream.¶

Notes to Editors:

About the International Council on Systems Engineering:
The International Council on Systems Engineering (INCOSE) is a not-for-profit membership organization that promotes international collaboration in systems engineering practice, education, and research. INCOSE's mission is to "address complex societal and technical challenges by enabling, promoting and advancing systems engineering and systems approaches." Founded in 1990, INCOSE has more than 65 chapters and over 20,000 members and associates worldwide. For additional information about INCOSE visit www.incose.org.¶
-¶

INCOSE Media Contact:—Honor Lind, Director for Marketing and Communications, marcom@incose.net, Call INCOSE at 1-858-541-1752 or visit www.incose.org.

Feedback on FuSE press release:

- The press release should only be sent out to outreach list
- The mapping of FuSE Streams to SE Vision Categories should not appear in the press release

Stream Leads: check if you are approving the other content of the press release

FuSE Roadmap 2023.

- Update on INCOSE events (IW, EMEA, IS)
- SE Vision 2035 roadmap breakdown
- FuSE program roadmap 2023

Next Steps of Upcoming INCOSE Events.

FuSE @ EMEA WSEC

Proposed Participation

Proposed Agenda

1. Keynote Ralf on FuSE
2. Panel 85min fixed (deadline JAN 10)
3. Workshop (4x2 hours WS) (deadline FEB 28)
4. Stream leads to get engaged, be approachable

Next Steps:

Meeting with Anabel to share FuSE idea and ask for feasibility
How hybrid is EMEA WSEC?

FuSE @ IS 2023

Proposed Participation: Ancillary Event

Proposed Agenda

- Total: 4h FuSE Workshop
 - 1h intro (1 big room)
 - 2h stream breakup (big room + 3 smaller rooms)
 - 1h recap (1 big room)

Additional Info

- Ancillary Event (deadline Dec 31)
- What to achieve:
 - 6 months momentum check point,
 - IS is external audience
 - see if we are on track to meet 2025 goals,
 - share what we have done so far, get input on what we still must do
- Proposal to submit for Saturday / Sunday

Next Steps:

Bill to submit for the event:

Hint in the submission that working sessions are based off prior engagements.

What online session can FuSE offer until EMEA WSEC

IDEAS	KEY CHARACTERISTICS	NEXT STEPS
<ul style="list-style-type: none"> IW was in-person, what is an IW-like, but virtual optimized experience? Webinar: What happened at IW? Webinar: What to expect at EMEA / IS / OASEC? Cross stream session to synchronize / align new team members FuSE webinar series (scheduled with INCOSE events team) 	<ul style="list-style-type: none"> Online Webinars to be promoted 3 weeks in advance Possible Objectives: <ul style="list-style-type: none"> 1: Inform & get feedback on IW 2: Similar experience than IW <p>Option 1: Participate to hear and give feedback Option 2: Actively work → Pre-read required</p> <ul style="list-style-type: none"> Active setup / Foster engagement Prerequisite to participate e.g., information meeting (rather not suitable) 	<ul style="list-style-type: none"> Socialize with INCOSE Events Team to share planned WS series → Get scheduling right with events team (time e.g., 17:00) Submit events (and ask for promotional support from marketing) LINK: https://app.smartsheet.com/b/form/8755a0e866854485b7ffb8b9ec9aa02c Provide content for information session (CW 8) Identify content for stream sessions (CW 9-12) in IW Other formats to place FuSE online sessions: <ul style="list-style-type: none"> INCOSE cafés

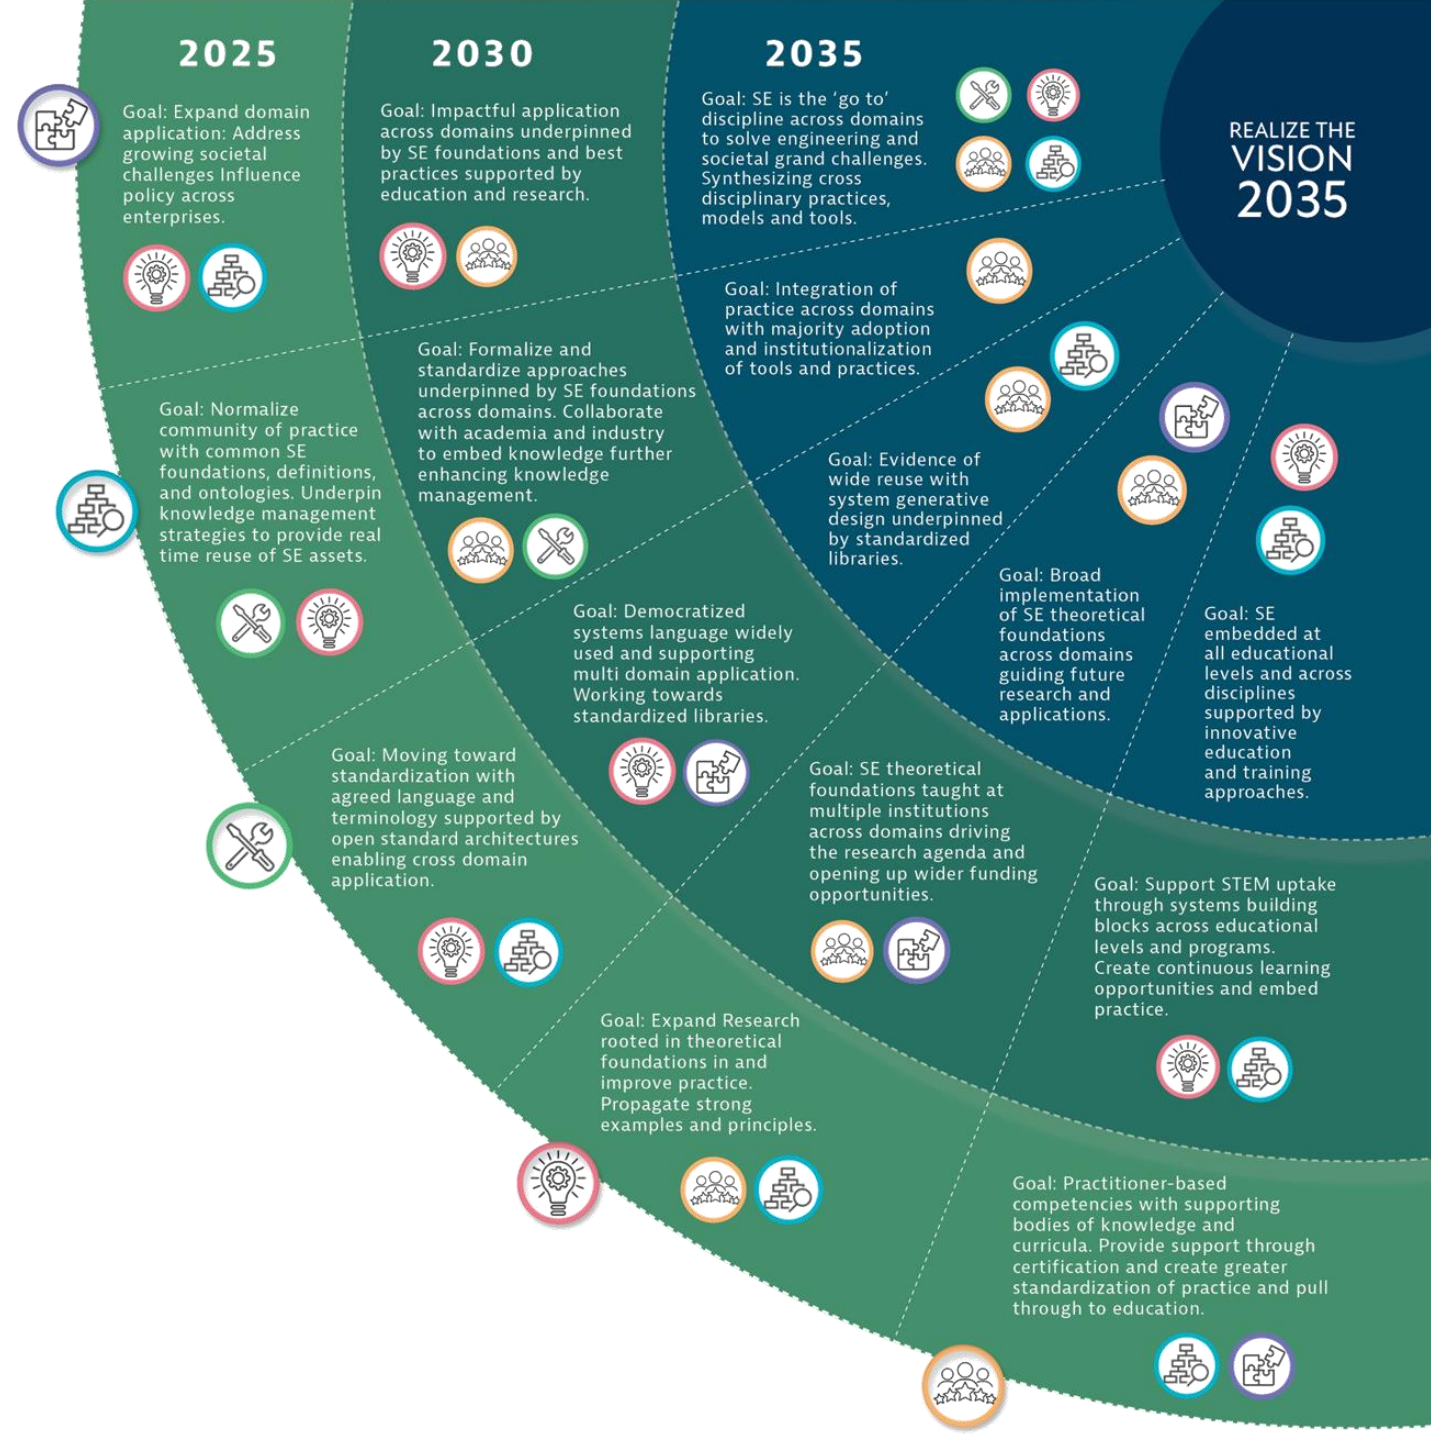

Possible Schedule:

	CW 8	CW 9	CW 10	CW 11	CW 12
WS Cascade	Information FuSE Overall (2h)	Stream 1 (2h) Working Session	Stream 2 (2h) Working Session	Stream 3 (2h) Working Session	Stream 4 (2h) Working Session
Weekly Sessions	Content: wrap up session	Topic: To be identified at IW	Topic: To be identified at IW	Topic: To be identified at IW	Topic: To be identified at IW

SE Vision 2035 roadmap breakdown.

SE Vision 2035 roadmap

Identify key deliverables to realize the SE Vision 2035

Breakdown of SE Vision Roadmap Goals 2025

Miro documentation

Breakdown of SE Vision Roadmap Goals 2025

Application

Identification of different domains

- "Grouping" / Identification of application areas / domain.

Description of different domains (characteristics, maturity, challenges...)

- PESTLE
- Validated Contextual and Ecosystem Model of a non-traditional domain
- Create a baseline of status quo in different domains and maturity level
- Characteristics (DNA) of domains based on SE applicability "What benefit is SE bringing to those domains"
- Identification of key challenges / differences per domain / application areas

Review research of different domains

- Identification of prior research of applying SE to non-traditional applications, (what do we already know)
- Evidence of SE competency in non-traditional domain
- Dependence on needed SE Research such as in cognitive science

Selection of focus domains

- Identification of focus domain
- What about: Finance (banking), Politics, Gaming industry
- Make the number of desired new application domains explicit --> clarify already known targets

Create examples & application guides

- SE application guides for new domains, incl Smart Cities, Local gov, Financial systems, TBD
- Provide examples of SE as applied to targeted grand challenge areas
- Policy advice reports
- SE application guides for domains (determine our current publications)

Identify collaboration partners from domains

- Overview of collaboration partners of the different industries

Breakdown of SE Vision Roadmap Goals 2025

Practices

Create baseline of existing standards

- Fitness for purpose of existing SE standards and handbooks vice exponential scale, interactions, and non-determinism of systems

Create common ontology / glossary

- A common SE ontology/glossary, with terms mapped to CoP/domain/industry !!
- Reflect in INCOSE SE Model
- Define generic and domain specific terminology and definitions
- Reflect in SE Handbook and SEBOK
- Define generic foundations of SE (done by means of Research activity)

Document SE practices & value

- A shared set of "lesson learned" showing the value of SE (incl "small" daily contributions)
- Reuse practices are documented at a usable level
- Knowledge Management (a learning SE system) 'deployment' pattern is published

Create fist derivations of SE documentation

- The Manager's guide to SE ... how to get maximal (business) value out of SE
- Practices are updated to be contextually aware (with people + tools + competencies + data)

Validation aspects:

- *Sizing resources (people and tools including computing and power) to engineer systems at scale*
- *Amount of computing power / electrical power --> are the practices actually practicable (e.g., blockchain)*
- *# of Actions to Research Agendas (far enough ahead to benefit Methodology Stream)*

Breakdown of SE Vision Roadmap Goals 2025

Tools & Environment

Identification of What needs to be standardized

- Horizon scanning
- Identify which of the tool's characteristics need to be standardized
- SysML version 2 is trying to achieve aspects of this
- AI tools for SE

Identification of what is already there

- Gathered and validated needs from CAB/industry 'users' (to drive vendors) (the 'why')
- Landscape report of DEIX standards (as of today)
- Map of the standards landscape (the quagmire) and guide to how to approach them
- Validation of models in engineering and integration of models

Derive first guides and tools

- The guide to integration of SE tools in your enterprise
- Example data flow pipelines documented (with transformations) through lifecycles
- "DevOps toolchain" for Systems Lifecycle Management of CPS

Identify how to integrate SE engineering tools with SW engineering tools (together with partners)

- Engagement with traditional "Enterprise Architecture" IT partners
- Clarification on how SE tools/data/etc. is same as / different from 'rest of business' info ecosystem
- A Systems Approach = Systems Thinking + SE. What are the tools for Systems Thinking?

Breakdown of SE Vision Roadmap Goals 2025

Research

Create baseline of existing foundations

- Identify needed foundations and initiate related research area's
- Map existing / missing SE/ST foundations .

Create / align research agenda

- Research addressing the Grand Challenges - with a systems approach, i.e. managing the problem and solution space in a systemic way
- Align (if possible) research agendas and funding for SE Vision 2035 goals

Make the value of SE quantifiable / measurable

- Applied research showing effectiveness of SE in dynamic, uncertain, chaotic/complex systems (including what needs improved in SE)
- SE coming of age - an agreed set of theories with acknowledgement of the heuristic/practice part. " SE is an Art and Science"

Ensure applicability of foundations

- Fitness for purpose/practicability of research into practice

Elaborate first awareness campaigns

- Awareness campaign at Universities, policy writers, etc. to share that SE is a part of the solution for complex/chaotic problems

Validation aspects:

- *growing recognition of SE in e.g. universities, reports*

Breakdown of SE Vision Roadmap Goals 2025

Competencies

Creation of a competency map

- SE Competency model 3.0 (?)

Baseline of current set of competencies

- Strengthen quantitative and modeling competencies of systems engineers

Tailor and apply competencies to different contexts

- Additional competency models explicitly linked (that would be beneficial for the larger problem set)
- Optimize reflection of appropriate competencies onto the INCOSE SEP program and Competency framework
- Reflect agreed set of competencies onto the research and education agendas (US and Non-US)
- The Competencies you need tailored to different applications/domains/industries

Setup community

- Set up a community to share the use and effects of the PDP

Generate first publications

- The Manager's guide to build an effective team, incl use of PDP, SE/PM integration, etc
- Multiple 'paths' of an individual change-journey shared (If this, then that)
- Stories published on leveraging Competency Guide & PDP & more that are aligned with individual & SE needs.

Collaborate with GRCSE 2.0

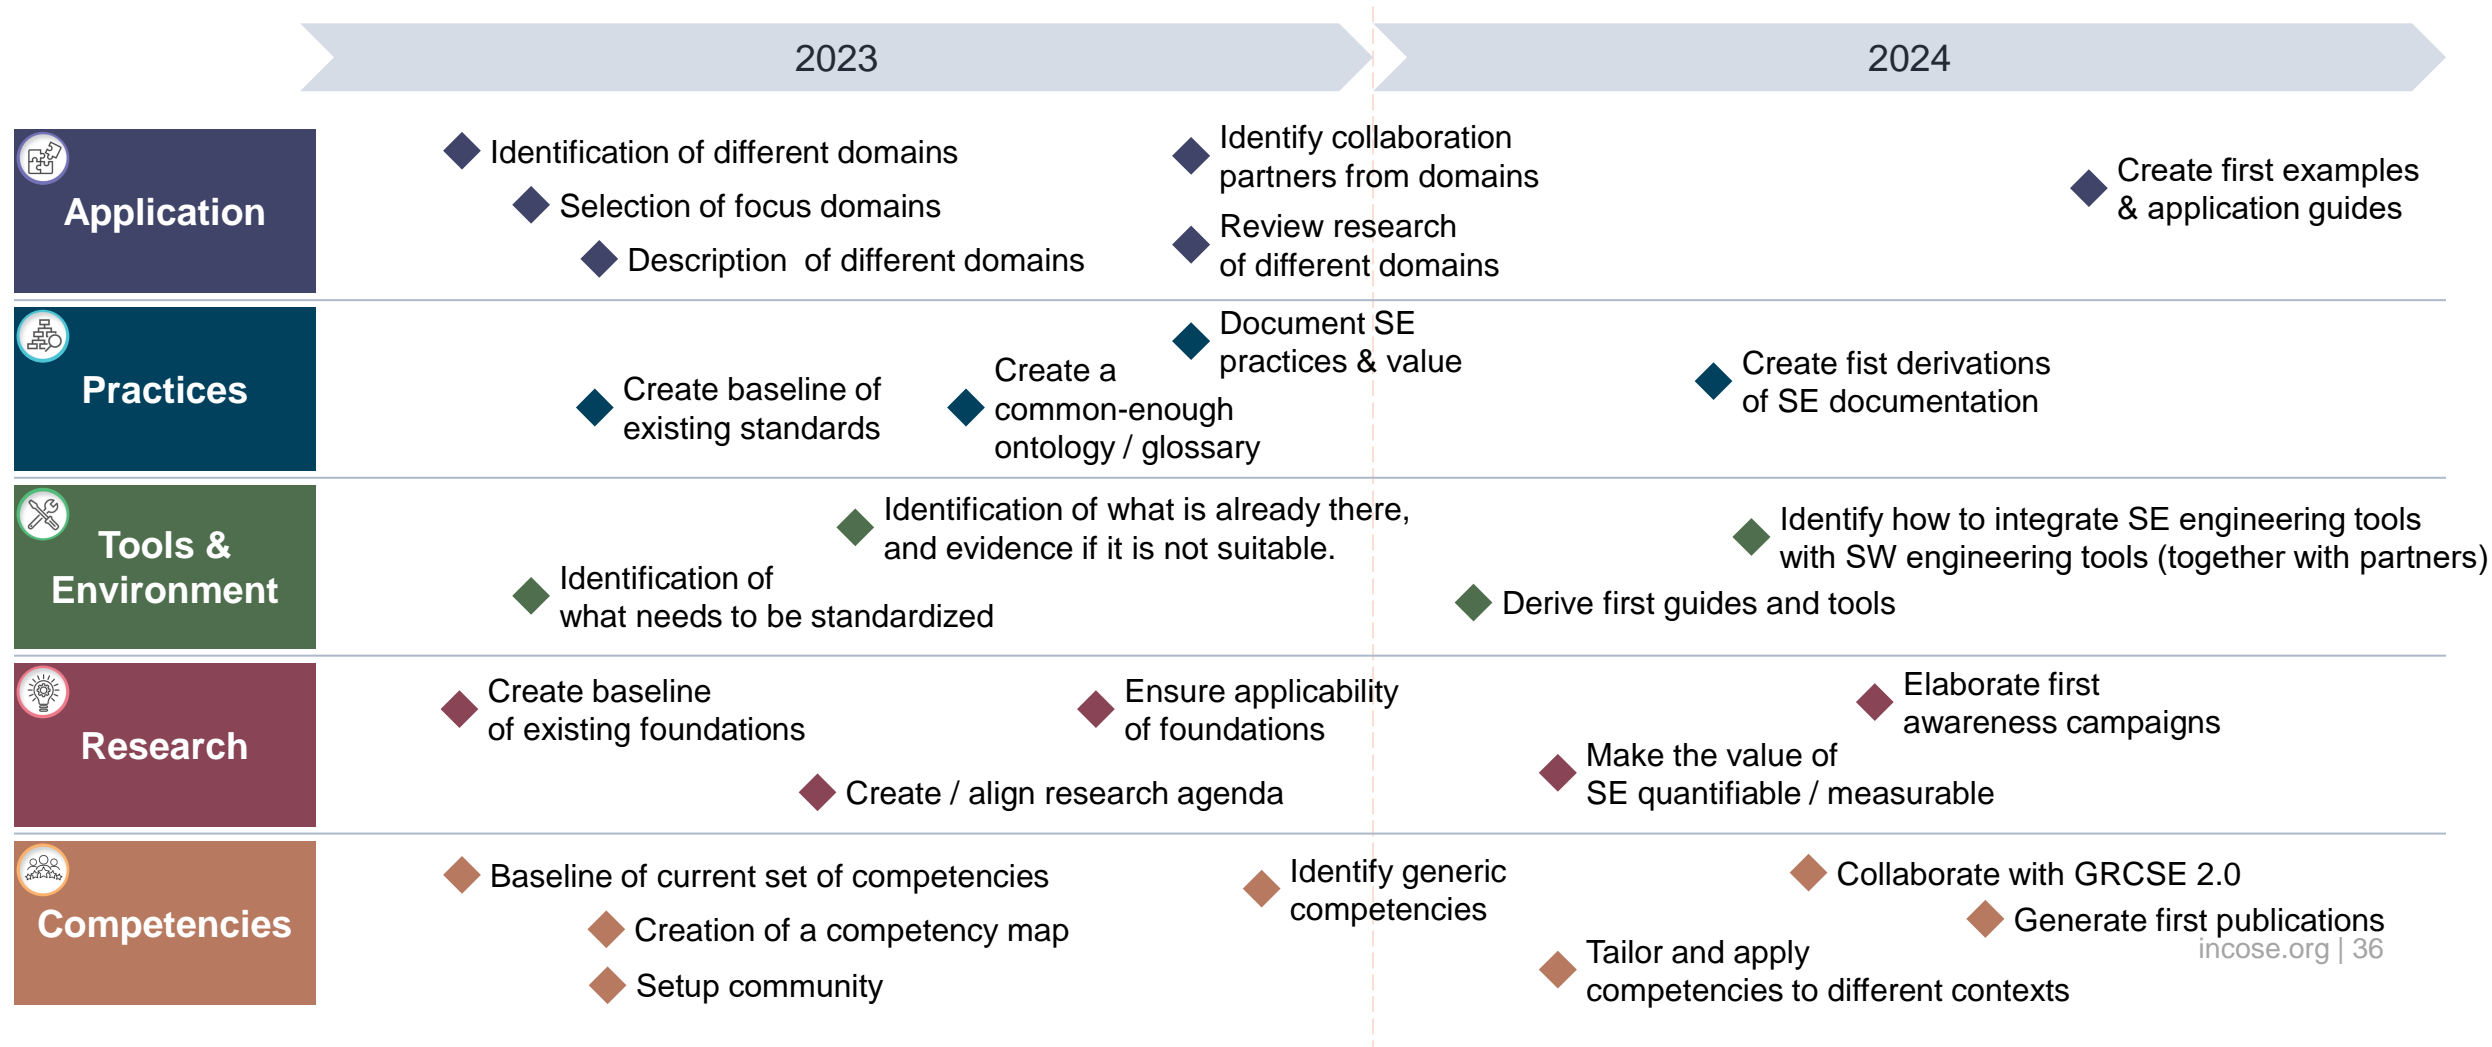

- GRCSE 2.0 (professional Masters degree curriculum)

Generic sequence towards SE Vision 2035 roadmap goals 2025.

Miro documentation

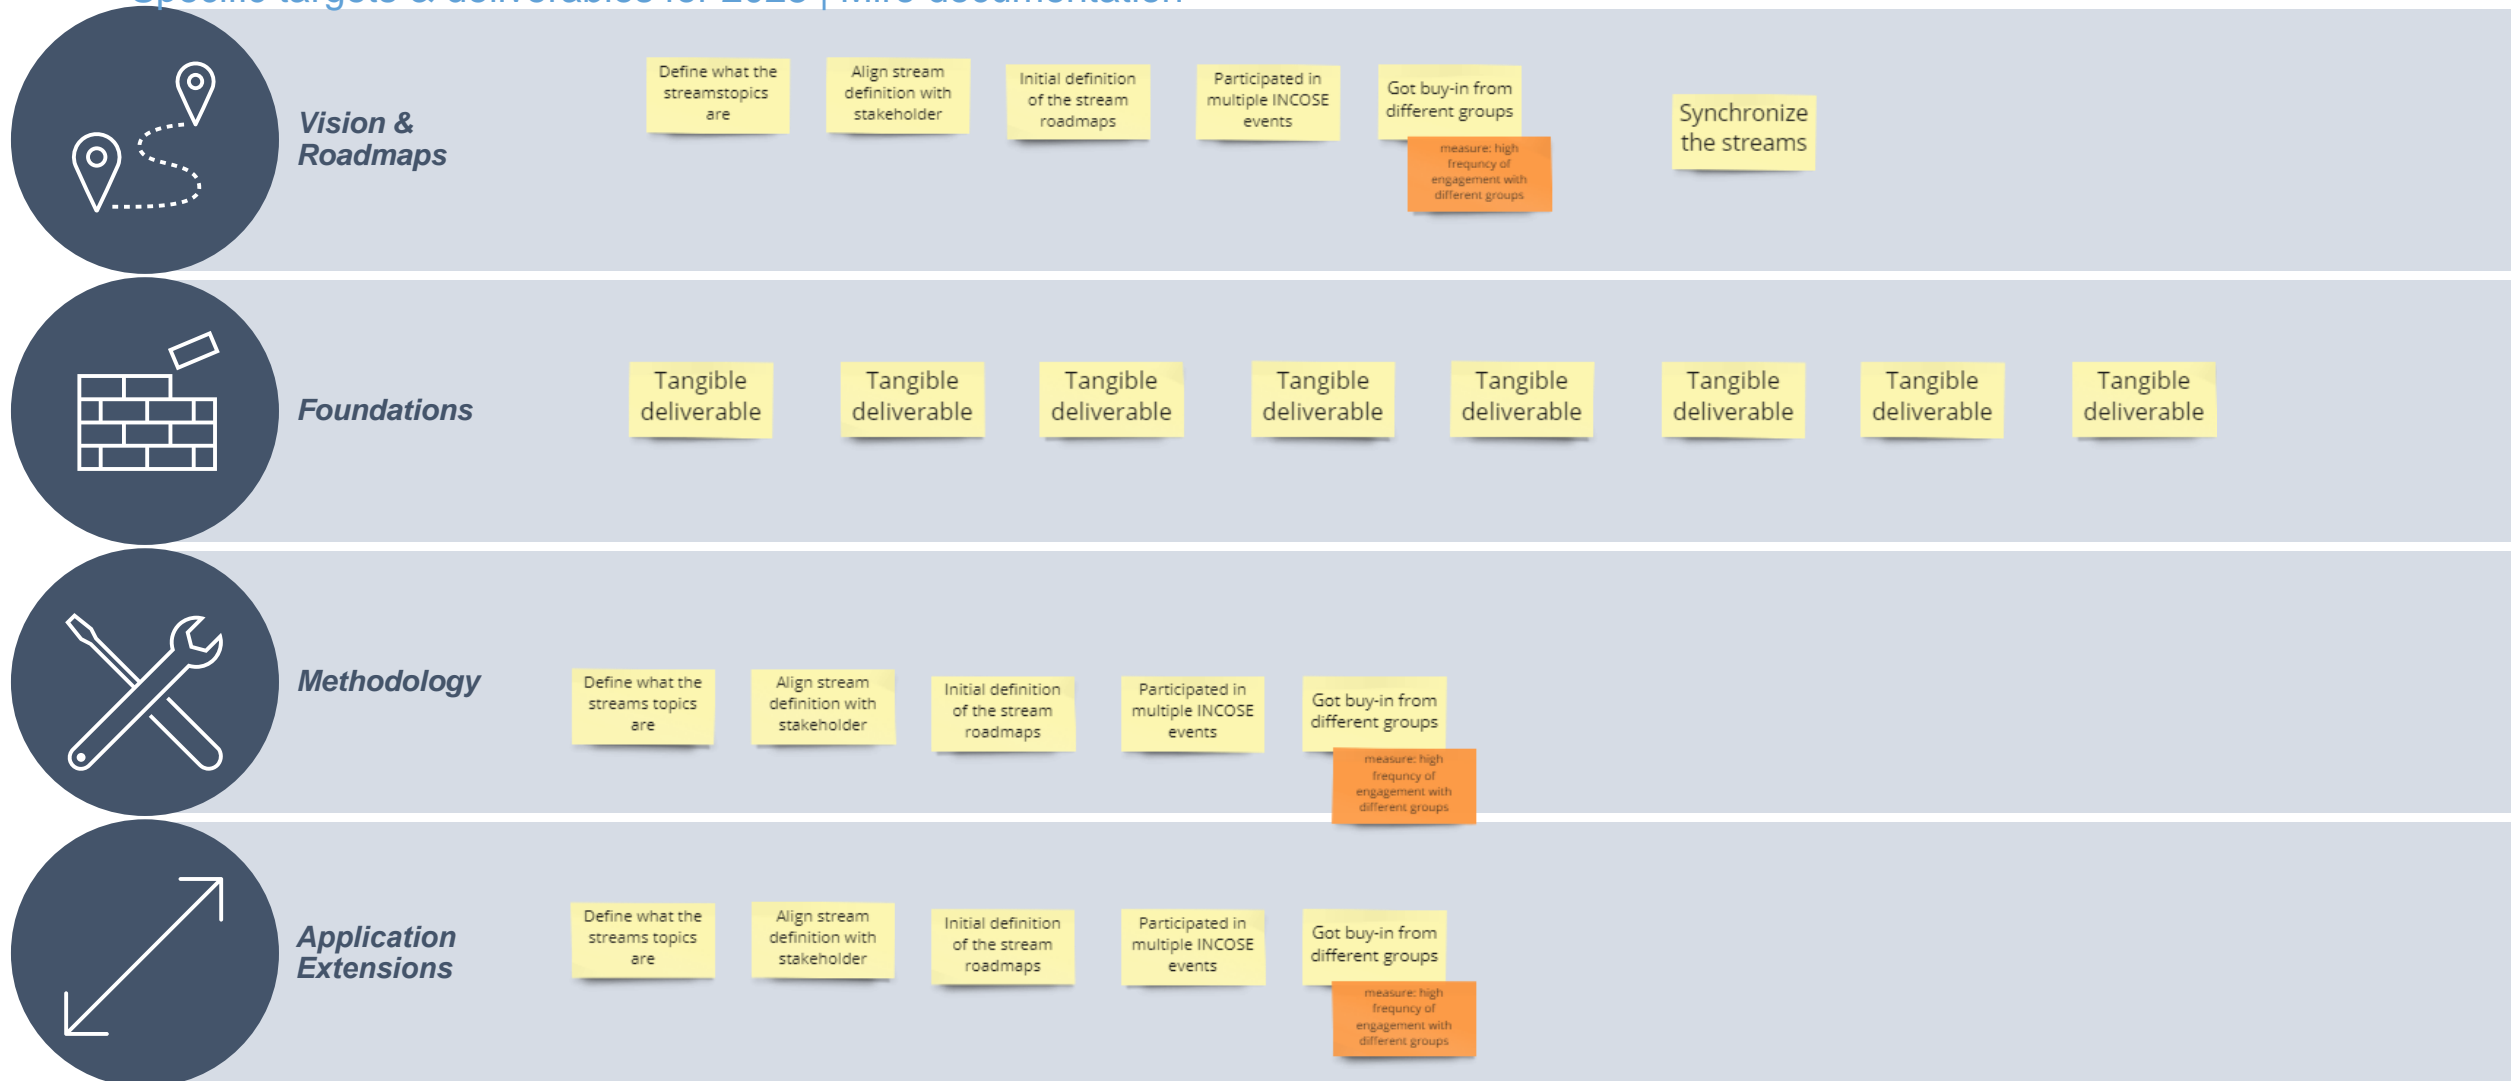

Sequence of SE Vision 2035 elements for 2025 goals

2023 target for FuSE streams.

What do you want to achieve in your stream in 2023?

Specific targets & deliverables for 2023 | Miro documentation

What do you want to achieve in your stream in 2023?

Specific targets & deliverables for 2023

*Vision &
Roadmaps*

- Define what the streams topics are

- Align stream definition with stakeholder

- Initial definition of the stream roadmaps

- Participated in multiple INCOSE events

Foundations

- Got buy-in from different groups
(measure: high frequency of engagement with different groups)

- Synchronize the streams
(specific to Vision & Roadmaps stream)

Methodology

*Application
Extensions*

Communication.

- Stakeholder Analysis

Stakeholder analysis.

Guiding questions for stakeholder identification:

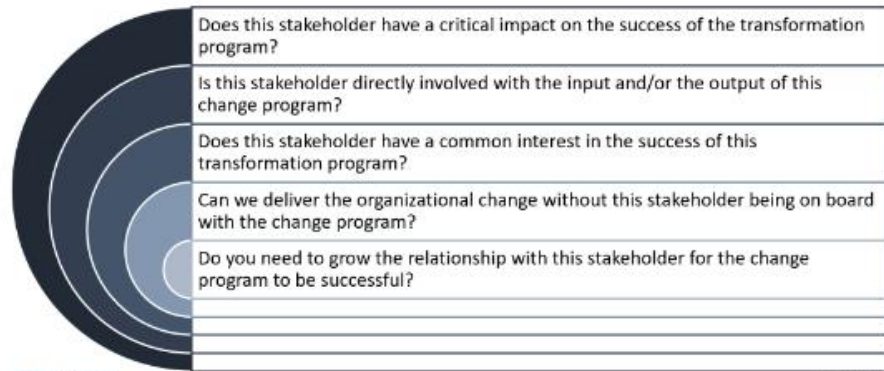

Does this stakeholder have a critical impact on the success of the transformation program?
Is this stakeholder directly involved with the input and/or the output of this change program?
Does this stakeholder have a common interest in the success of this transformation program?
Can we deliver the organizational change without this stakeholder being on board with the change program?
Do you need to grow the relationship with this stakeholder for the change program to be successful?

Stakeholder analysis

Miro documentation

Guiding questions for stakeholder identification:

Identification of FuSE stakeholder

 Stakeholder (Group)	 Representative / Contact	 Size	 Stream	 Perspective	 Attitude
Vision Core team	Sandy F./ Heinz	7	Visions & Roadmaps	Reviewers of changes and additions to the vision	Positive; supportive
TechOps WG Chairs/ Co-Chairs	Olivier D./ Erika	150	Overall	Bridge the gaps; doers; work force contribution; enablers	Neutral; supportive; "waiting"; some don't want to have to do anything with FuSE
FuSE Executive Team	Ralf / David	5	Overall	Oversight; championing; feel responsible; enablers	Proactive; positive
Corporate Advisory Board	Ron G.	130	Overall	Interested	Neutral; rather positive; not negative
Academic Council	Alejandro Salado	20	Foundations	Provide input; encourage them to get involved	Feel left out
Outreach office (incl. external organizations)	Julia	5	Application Extensions	Supporters	Positive
IEEE SMC	Chris Nemeth	15	Foundations / Methodology / Application Extensions	Collaborators	Positive
INCOSE executive director	tbr	1	overall	Oversight; advocate as ambassador	Positive
ISSS	David Roussou		Foundations	Collaborators	Cooperative
US NDIA (SE Devision)	Garry Roedler		Methodology	Supporter; collaborator	Positive; collaborative
Chapters (US)	Sector directors	20-30 per sector	Methodology / Application Extensions	Receiver; contribute (less) Note: needs more attention to make them collaborate	Interested
Chapters (National)	Sector directors	20-30 per sector	Methodology / Application Extensions	Receiver; narrow; strong contributor Note: needs more attention to make them collaborate	Interested
Marketing	Honor	5	overall	Supporters	Validated; affirmative
My employer	self	1	individual	Wants results	Supportive; positive
EWLSE / DEI	Alice Squires	12	Application Extensions / Methodology	Revise: diversity, inclusiveness; oversight	Different perspective in their different roles within INCOSE
Technical Leadership Institute	David Long	81	Overall	Case study focused; forward looking	Positive
SERC	Tom	-	Foundations / Methodology	Collaborators	Positive

Stakeholder matrix

How powerful and interested are the identified stakeholder?

Next steps on stakeholder management:

- Derive communication measures targeted at the identified groups and their needs
- Continuously revise the stakeholder analysis
- Add new stakeholder if needed (especially the stakeholder that are not yet aware that they are stakeholder)

Program Handbook.

FuSE Program Handbook

What is the program handbook?

The program handbook answers
HOW FuSE works together.

It should e.g., support new
members to understand the ways
of working within the FuSE
program

The handbook is a living
document, that is going to be
updated as needed.

Miro documentation

Meetings won't be selective to the content

Overview of required FuSE meetings

Miro brainstorming

Overview of FuSE meetings (1/4)

Meeting: Alignment meeting with Ralf

Frequency: tbd – e.g., monthly

Content:

- PREPARE: Achievements to BoD - content suitable to a board / no design review - quarterly (P)
- Achievements, Benefits, Concerns (P)
- PREPARE: Achievements to FuSE Executive Team (P)
- Monitoring & Control (P)
- Burn-rate of funds / resources (P)
- Current Risks (I)
- Current Opportunities (I)

Meeting: Check-in with Bill / PMO working sessions

Frequency: tbd – e.g., weekly, bi-weekly, monthly

Content:

- Monitoring (P)
- Current Risks (I)
- Current Opportunities (I)
- Portfolio/program management (D)

Meeting: BOD Meetings

Frequency: quarterly

Content:

- PRESENT: Achievements to BoD - content suitable to a board / no design review - quarterly (P)
- Achievements, Benefits, Concerns (P)
- Products generated, in progress (P)
- What products are available for whom (D)
- Current Risks (I)
- Current Opportunities (I)
- Risk mitigations and opportunity actions (D)
- Sharing of SE Vision Roadmap & FuSE Roadmap (we are currently 'here') (W)

Overview of FuSE meetings (2/4)

Meeting: Executive Team Meeting

Frequency: tbd – e.g., bi-weekly

Content:

- Achievements to FuSE Executive Team, Achievements, Benefits, Concerns, Presentations/ archiving of results (P)
- Collaboration health (P)
- Burn-rate of funds / resources (P)
- Monitoring & Control (P)
- Events of interest to cover, briefings/panels at events (I)
- SWOT, current Opportunities, current risks (P) (I)
- Risk mitigations and opportunity actions (D)
- Approval of news/info to be communicated (D)
- Where do we stand regarding the SE Vision, changes in the context (P) (I)
- Approval of products generated / submitted by others (D)
- Approval of roadmaps (D)
- Synchronization of the road maps (D)

Meeting: Cross - Stream Alignment Meeting / FuSE Overall

Frequency: start with bi-weekly

Content:

- Monitoring & Control (P)
- Achievements to FuSE Executive Team, Achievements, Benefits, Concerns, Presentations/ archiving of results (P)
- Briefings/panels at events, events of interest to cover (I)
- Topics that streams are currently working on, monthly stream debrief (Stream Sync), integration of the streams, stream dependencies (I)
- Collaboration health (P)
- Program working meeting on programmatic aspects, like planning updates, replanning, etc. (W)
- Creation and alignment of news/info to be communicated e.g., Every other meeting have marketing involve in the stream meetings (D)
- FuSE Roadmap update, change Request Disposition (D)
- Where do we stand regarding the SE Vision, changes in the context (P) (I)

Overview of FuSE meetings (3/4)

Meeting: V&R Stream: meeting to evaluate submitted materials for the online version of the vision

Frequency: quarterly

Content:

- Updating the SE Vision (D)
- Evaluation of products generated / submitted by others (D)
- Change Request Disposition (D)
- Synchronization of the road maps (D)
- Peer reviews of in-process work (e.g., TPP driven content) (W)

Meeting: Stream Meetings (within the streams)

Frequency: tbd – e.g., monthly

Content:

- Monitoring & Control (P)
- Health check of contributors (P)
- Topics that streams are currently working on (I)
- Peer reviews of in-process work (e.g., TPP driven content) (W)
- program working meeting on programmatic aspects, like planning updates, replanning, etc. (W)

Overview of FuSE meetings (4/4)

Meeting: Validation

Frequency: on demand

Content:

- Validating outcomes/ products (D)
- Peer reviews of in-process work (e.g., TPP driven content) (W)

Meeting: Public events

Frequency: on demand

Content:

- Briefings/panels at Events (P)
- Quarterly At INCOSE Events (IW, IS, EMEA. A-O) (W)
- Gathering wisdom of the whole (W)

Meeting: working Sessions (stream related - FuSE hosting the event)

Frequency: on demand

Content:

- Gathering wisdom of the whole (W)
- Able to be replicated by others (distributed / parallel working meetings) (W)
- Where do we stand regarding the SE Vision, changes in the context (P) (I)

Infrastructure & Guidelines.

Major pain points

Based on PMO reference model (Baselining Workshop) | Investment decreasing

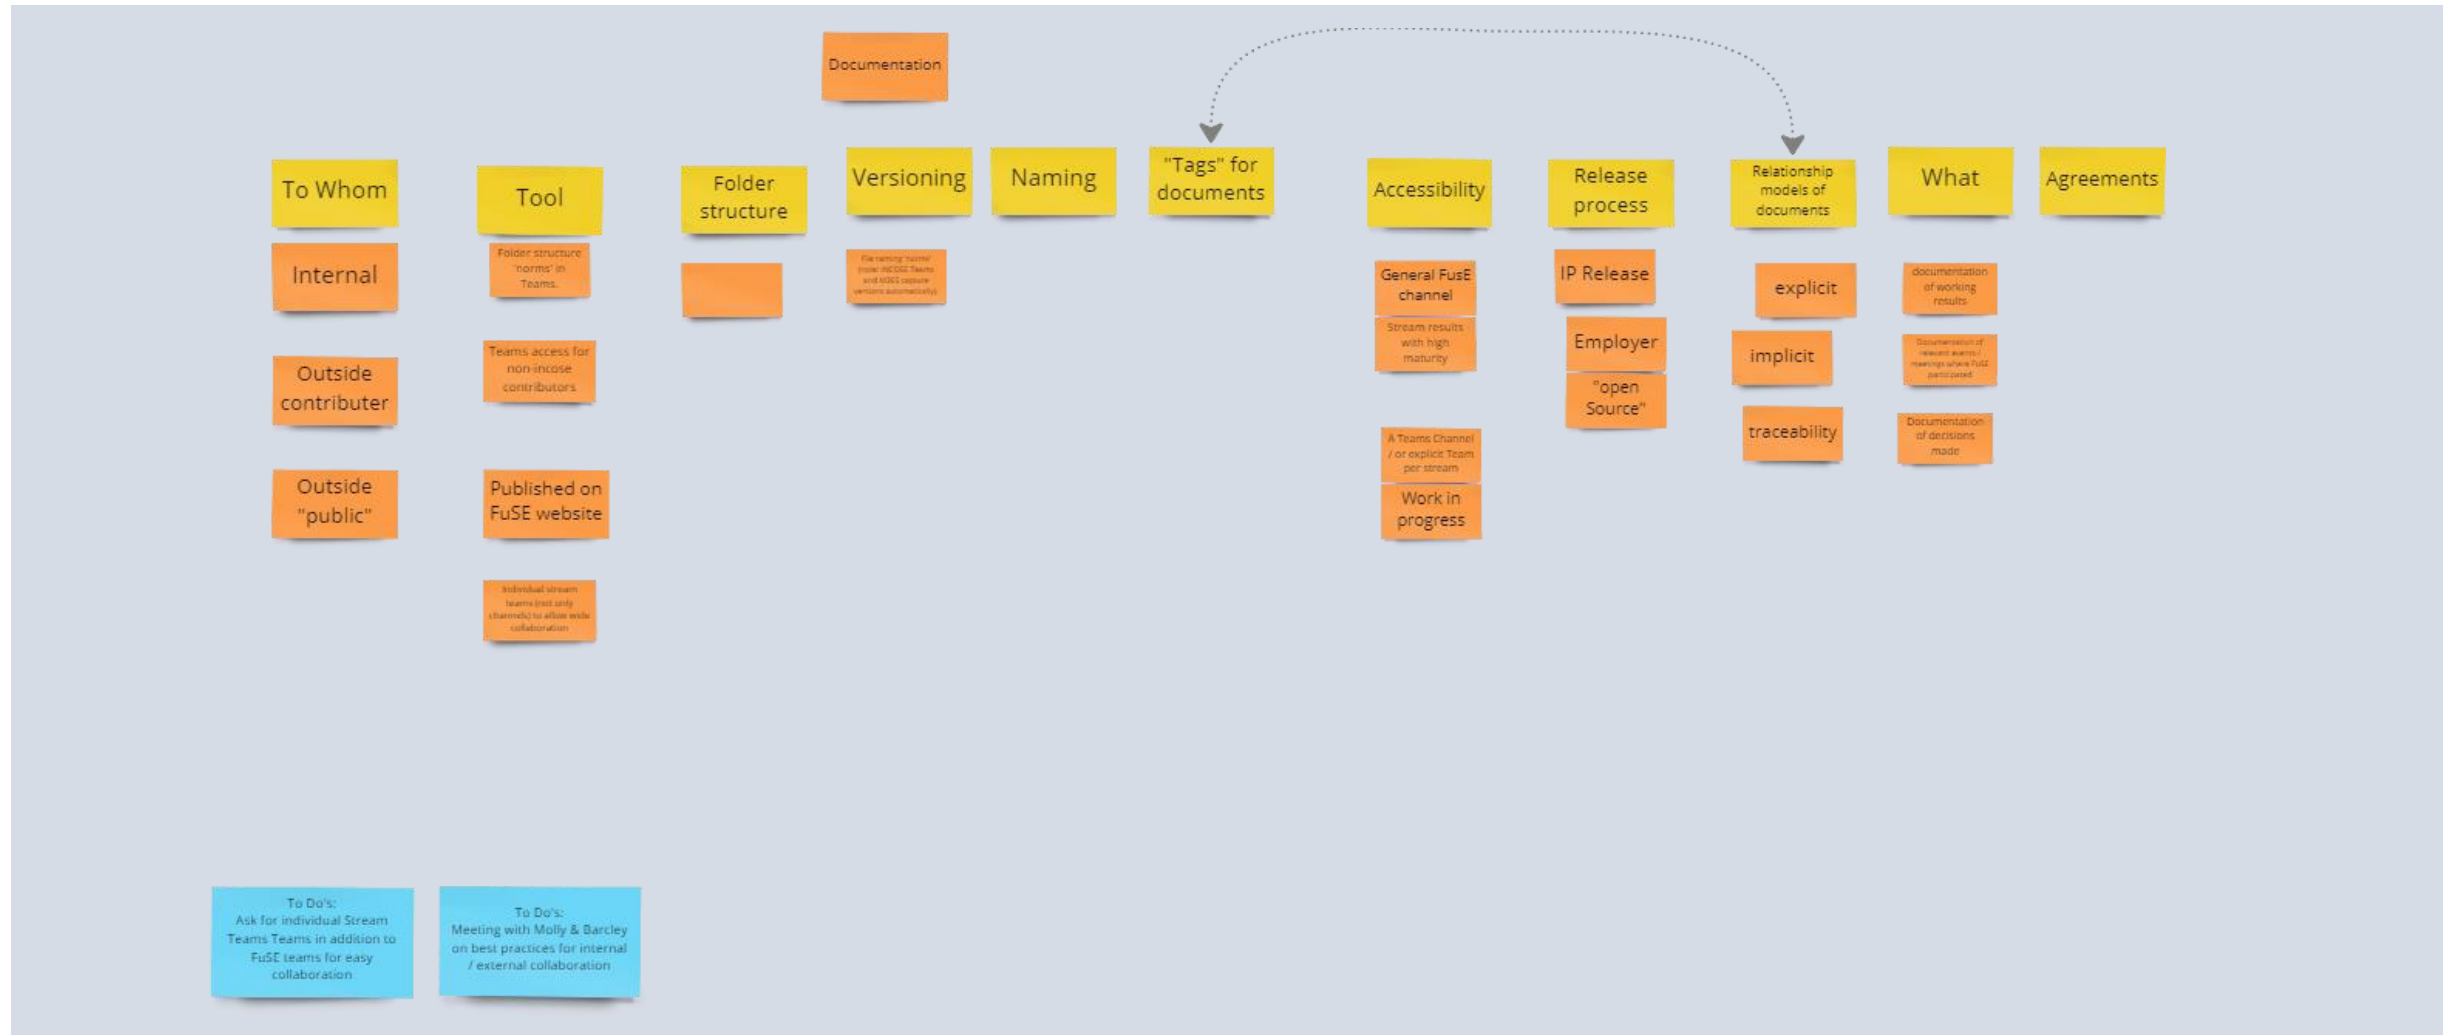

What to specify (Brainstorming)

Miro documentation

First thoughts towards standardized documentation

Miro documentation

First thoughts towards standardized documentation

Morphologic Box

Tho Whom	Tool	Folder structure	Versioning	Naming	Tags for documents	Relationship models of documents	Accessibilit y	Release process	“What”	Agreements
Internal	Folder structure 'norms' in Teams.		File naming 'norms' (note: INCOSE Teams and M365 capture versions automatically).			explicit	General FusE channel Stream results with high maturity	IP Release	Documentation of working results	
Outside contributor	Teams access for non-incose contributors					implicit	A Teams Channel / or explicit Team per stream Work in progress	Employer	Documentation of relevant events / meetings where FuSE participated	
Outside "public"	Published on FuSE website					traceability		"open Source"	Documentation of decisions made	
	Individual stream teams (not only channels) to allow wide collaboration									

Next steps on Infrastructure & Guidelines:

- Ask for individual Stream Teams in addition to FuSE Teams for easy collaboration
- Meeting with Molly & Barclay on best practices for internal / external collaboration

Closing.

Next FuSE Team Meetings

19 DEC
22

Pre-holiday Sync (Only if required) ↴

No meeting on DEC 19 but notification with summary on focus topics

9 JAN
23

Short Stream Synchronization

16 JAN
23

FuSE Synchronization for IW

Meeting on JAN 16 fixed despite
National US Holiday (MLK)

Let's connect

Bill Miller
