ABOUT INCOSE GLRC

The INCOSE Great Lakes Regional Conference (GLRC) is a medium-sized annual INCOSE systems engineering (SE) event organized by the INCOSE Chapters of the INCOSE Americas Sector North (Great Lakes) Region.

The GLRC was established in 2007 to provide a forum for supporting and promoting INCOSE and SE at the local Chapter and Regional levels.

The GLRC is strategically positioned "in-between" INCOSE's smaller-sized chapter-level events and INCOSE's two large-sized international events – the Annual INCOSE International Symposium (IS), held in July, and the INCOSE Annual International Workshop (IW), held in January.

The GLRC strives to deliver an exceptional high-value conference experience to attendees and presenters alike. Our approach is to provide an outstanding peer-reviewed program at a remarkably affordable price, with significantly less time commitment and travel expense than the INCOSE IS and IW events.
