## Chapter News

### Mar 12 - Speaker Meeting

#### Industrial DevOps: Principles for Building Better Systems Faster

To improve responsiveness to change we extend the original concept of Agile/DevOps, used primarily in software environments, into the cyber-physical world which includes the design and development of hardware, firmware, and software. Register today to attend this talk lead by Dr. Suzette Johnson, a Northrop Grumman Fellow for Lean Agile.

## Mar 29 - INCOSE Technical Leadership Institute (TLI)

**Nominations close Friday, March 29th!**

The LA Chapter is looking to nominate a chapter member to the TLI. Established in 2015, the TLI is a two-year program that emphasizes learning together across organizational, national, and cultural boundaries. TLI members are committed to improving technical leadership skills to better address today's product, enterprise, and societal complexity. Participants in the TLI must be nominated by a formal INCOSE leader. Interested applicants should contact Nazanin Sharifi at [president@incose-la.org](mailto:president@incose-la.org).

## Apr 9 - Speaker Meeting

### ChatGPT for SE

AI is impacting every aspect of life and work. Generative AI systems like ChatGPT seem particularly well suited to systems engineering applications since systems engineering involves so much text. Join Dr. Barclay Brown, Associate Director for AI Research at Collins Aerospace, as he delves into the utilization of ChatGPT and other large language models in the realm of systems engineering.

## New Look for Event Invites

Starting this month, our event invites and registration pages will look a little different. This change is only cosmetic, the information inside is still the same. If you have any questions, please reach out to [registration@incose-la.org](mailto:registration@incose-la.org). Thanks for supporting the LA chapter, we have an exciting year of events planned!
