

## **Connecting With Academia**

**Gina Guillaume-Joseph,  
EWLSE Lead, MITRE**

### **Connecting With Academia Strategic Objectives**

- To establish relationships with universities and academic institutions and their stakeholders.
- To collaborate with academia and university based organizations to establish initiatives and actions that are mutually beneficial
- To support academic members of INCOSE in all roles including administration, staff, faculty, and students in pursuing inclusion and diversity initiatives

### **Connecting With Academia Strategic Initiatives**

- Create a prioritized plan to establish relationships with relevant university based organizations
- Coordinate the activities of EWLSE member volunteers who are members of university groups to serve as EWLSE liaisons
- Share successful strategies and practices between academic organizations, other relevant professional organizations, and INCOSE
- Recognize, advocate for, and support ongoing academic programs and initiatives that support EWLSE goals including Science, Technology, Engineering, and Mathematics (STEM) and K-12 initiatives, Engineering Week, science fairs and engineering competitions, integrating systems engineering and systems thinking into the education of all engineers, doctoral workshops, etc.
- Provide EWLSE presence at key events by providing speakers, coaches, judges, mentors, or providing flyers and other resources
- Promote INCOSE scholarships and identify potential candidates and support their inclusion in the pool of worthy applicants
