### St. Louis Chapter Missouri Society of Professional Engineers

## April 2012 Meeting Mentoring – Engineers and Students Tour and Presentation

**Date:** Thursday April 5, 2012

**Location:** James S. McDonnell Prologue Room  
Boeing St. Louis, Bldg. 100

**Networking/Tour/Pizza/Soda:** 5:30 p.m.

**Mentoring Presentation/Meeting:** 6:30-7:15 p.m.

**Abstract:** The Missouri Society of Professional Engineers (MSPE) St. Louis Chapter is joining with the Washington University Student Chapter to sponsor a mentoring program between the students and engineers. The pilot program hopes to provide students with trusted engineering professionals as mentors to discuss their goals and provide advice. This will be our first group meeting. The meeting will be held at the James S. McDonnell Prologue Room, which tells the story of more than nine decades of aviation progress, from biplanes to space travel. Scale models, diagrams, paintings and photographs document such important events as the first flight around the world in 1924, the first take-off of a jet fighter from a U.S. Navy carrier in 1946 and the first manned spacecraft to orbit the Earth in 1962. We plan to have a real time F/A-18 flight simulator and a Boeing executive to provide guidance to the students.

#### Directions:

James S. McDonnell Prologue Room Boeing St. Louis, Bldg. 100  
Enter at Bldg 100 entrance off of Airport Road—See Map on Website
