

August Meeting

“Model-Based Systems Engineering in an Integrated Data Environment”

2012 International Symposium Paper

Speaker: Barbara Sheeley

BDS Systems Engineering, IPA Program Manager

Date & Location: 30 August 2012, Boeing Building 270 A-Wing Conf Rm 108

Brown Bag Lunch / Networking: 11:00 a.m. – 11:30 a.m.

Presentation: 11:30 a.m. - 12:30 p.m.

Abstract: Barb, along with Christi Gau Pagnanelli (BDS SE Director) and Ron Carson (INCOSE Fellow), presented this paper describing the Boeing approach to model-based systems engineering at the 2012 International Symposium in Rome on July 10. This session will include a repeat of this presentation as well as other observations from the symposium.

Biography: Barb Sheeley has over 30 years experience working operations analysis, systems engineering and program management at the Boeing company. She is currently the program manager of the enterprise SE-Focus area called Integrated Product Architectures (IPA), where her team is developing and implementing a common approach to Model-Based Systems Engineering. She holds an MBA and BS in Industrial Engineering from Southern Illinois University at Edwardsville.

Directions: Boeing B270 is at McDonnell Blvd and I-270 with Address: [5775 Campus Pkwy , Hazelwood, MO 63042](#) Non-Boeing attendees enter at visitors' lobby.

Reservations not required, but please contact Joanie Humbert (Joan.Humbert@boeing.com or 314-232-0703) by August 28th for an expected attendance count and badging for non-Boeing attendees. Non-Boeing attendees, please contact Bill Bezdek for meeting escort (cell:314-306-6210).

No Cost

Snacks provided by INCOSE.

Lunch is also available from Bldg 270 Cafeteria.
