or call: (757) 359-1131

Directions :

I-664 Exit 8A onto College Dr
Turn left onto Harbour View Blvd.
Right onto Bridgeway Drive,
Into back parking lot on the left.

Meeting Agenda :

Gathering	4:30
General Q&A- Ask INCOSE	5:00
Speaker Presentation	5:30
followed by Social	
Closing	8:00

NOVEMBER 18, 2015
Wednesday 4:30 – 8:00 PM

INCOSE
President
David Long

Building for Tomorrow: Towards 21st Century Systems Engineering

Systems engineering is a practice and a profession in transition. For almost ten years, systems engineering has framed the transition as one from document-centric to model-based techniques. While an important part of our future, this aspect is only a small part of the required transformation. There are many more dimensions to the challenge as we move from the needs of the past to the problems of today.

If we as systems engineers are to move beyond 20th century systems engineering, what must we address? How must we adapt, evolve, and transform to build for tomorrow?
