5th Annual Systems Engineering in Healthcare Conference

May 1-2, 2019
Minneapolis, MN

World Class Speakers
Open Collaboration Sessions
Bring your own contributions
16 PDU Credits Available

Call for for Registration

The INCOSE Conference on Systems Engineering in Healthcare enables participants to share the best practices in the latest Systems Engineering topics as applied to Healthcare. The conference theme is *"How SE Can Reduce Cost & Improve Quality."* Previous conferences focused on applying Agile methods to systems with hardware and software. The 2019 conference will broaden the topics to include systems methods for healthcare delivery (direct patient care).

Keynote Speaker: Kathleen L. Frisbee, PhD, MPH, Veterans Health Administration
"The Digitization of Healthcare"

U.S. Department of Veterans Affairs

GE Healthcare

Plenary Speaker: Gary Strong, CT and PET Engineering GM, GEHC-Retired
"So You Wanna Be a Rock 'n Roll Star; *Maximizing Your Impact as a System Engineer"*

Audience
The audience for this conference is Systems Engineers, product developers and testers, Certifiers, and leaders of organizations developing complex healthcare products and services, from large Healthcare IT systems to medical devices to healthcare delivery organizations.

Conference Theme / Description
For this small and interactive conference, we seek practitioners to share their knowledge and experience through presentations and collaborative sessions. We encourage sessions on experience reports and case studies, Interactive panel sessions, and instructional tutorials. There will be invited tracks on

Agile & Lean Methods   Cybersecurity   Modelling and Simulation

Healthcare Delivery: Simulation, Systems approaches, UX, and Home Healthcare
