

**Presentation and Demo by Delphi
&
Teledyne LeCroy
at
Ridgedale Library, Minnetonka
Tuesday, May 16, 2017**

Sponsored by: SAE Twin Cities Section

Topic:

Presentation and Demo by Delphi and Teledyne LeCroy on serial communication, cyber security and associated solutions for the automotive industry.

Background:

Delphi is a high-technology company that integrates safer, greener and more connected solutions for the automotive and transportation sectors. Headquartered in Gillingham, U.K., Delphi operates technical centers, manufacturing sites and customer support services in 46 countries. Join SAE Twin Cities to hear a presentation from long time SAE member: **Wes Mir, a Serial Communications Engineer** associated with Delphi's **Kokomo Indiana Technical Center**. Wes Mir's talk will cover the following topics:

- Delphi Overview
- Serial Protocols as applied to automotive/transportation industry
- Cyber Security
- Hands-on demonstration of several Delphi products related to serial communication and cyber security

Teledyne LeCroy is a leading provider of oscilloscopes, protocol analyzers and related test and measurement solutions that enable companies across a wide range of industries to design and test electronic devices of all types. Headquartered in Chestnut Ridge, New York, LeCroy has sales, service and development subsidiaries in the US and throughout Europe and Asia.

Wes Mir of Delphi in his earlier talk will use some of the LeCroy products for his demos. **Bob Higgins, Senior Account Manager** will provide an **overview of Teledyne LeCroy** and their products for the automotive/transportation industry and his presentation will complement Wes Mir's earlier presentation.
