

LST-104 INCOSE Inflation Index (III) - 10 September 2021

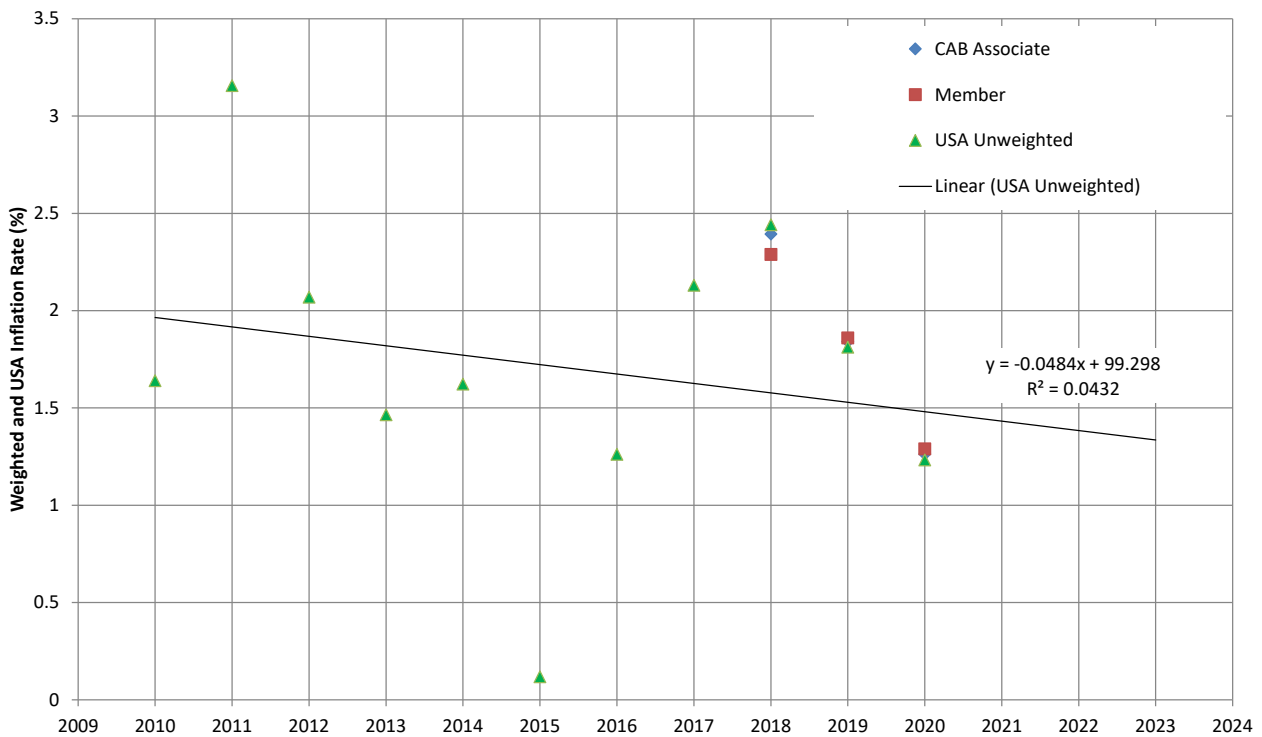

Table of Past and Projected INCOSE Inflation Indices

The INCOSE Inflation Index is based on a measure used by the World Bank to assess Inflation Rates by Country, "Inflation, consumer prices (annual %)".

Inflation Rates are downloaded from the Worldbank site. Weighted INCOSE Inflation Indices are calculated based on the distribution of CAB Associates and Regular members in January of the current year, and these are compared with the unweighted USA index. Given the similarity of the figures for the past three years, the prediction for the next three years is based on the USA unweighted index for the last 10 years, as shown in the graph.

Data Source	World Development Indicators											
Last Updated Date	6/30/2021											
Link to Source	https://data.worldbank.org/indicator/FP.CPI.TOTL.ZG											
	Actual											Current 3 Year Average
	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2018 - 2020
CAB Associate									2.394	1.841	1.263	1.833
Member									2.289	1.86	1.29	1.813
USA Unweighted	1.640	3.157	2.069	1.465	1.622	0.119	1.262	2.130	2.442	1.812	1.233	1.829
	Predicted											
	2021	2022	2023									
USA Unweighted	1.482	1.433	1.389									

Inflation Rate - INCOSE Inflation Index
