

TEC-100: Technical Operations Infrastructure – 22 Apr 2022

Purpose

This policy defines the structure of INCOSE Technical Operations (TechOps).

Applicability

The TechOps organization includes all members who are involved in TechOps activities such as Working Groups, TechOps Initiatives & the governance of each. The primary objective of the INCOSE TechOps Infrastructure is to advance world-class systems engineering through activities that relate to all facets of systems engineering across all sectors of application.

Definitions

Technical Activities: Any activity that falls under the responsibility of the members of INCOSE TechOps. This includes the development of Systems Engineering (SE) reference products, contributions to SE standards, assistance with SE events, contributions to promotional materials specific to a Systems Engineering topic or domain and fostering working relationships with other organizations that have similar interests.

TechOps Matrix: The TechOps Matrix describes the scope of TechOps activities in terms of enabling systems engineering disciplines and applications sectors. Assistant Directors (AstDs) are assigned specific areas within the TechOps Matrix to lead and govern. Working Groups are assigned to specific areas within the Matrix and assigned to the corresponding AstD. The TechOps Matrix can be found on the INCOSE website at <https://www.incose.org> in the Technical Operations and Working Group area.
