Dear Members, Friends, & Colleagues, please join us for our In-Person meeting:

Featured Speaker: Alexandra Kowalski, INCOSE Staff

This presentation aims to shed light on the diverse array of services offered to our membership. As the Services Committee continues to evaluate and reorganize the Services portfolio, we aim to inspire and foster a broader level of collaboration between these offerings and our membership. We will be showcasing the current offerings and give you a little more insight on what we are working towards in parallel with the evolving INCOSE structure. The Services Committee wishes to highlight how the portfolio will reinforce the value proposition by revitalizing our current offerings (and adding new ones) to benefit our community, as well as, to support the growth and adoption of the systems engineering practice across all domains.
