

Corporate Advisory Board

The customer's voice to INCOSE leadership

163 organizations committed to improving the future of systems engineering

The Corporate Advisory Board gives the organizations that employ systems engineers a direct voice in shaping the future of the profession. CAB members help identify emerging needs, influence INCOSE priorities, and turn ideas into action.

WHAT THE CAB DOES FOR INCOSE

- Names the systems engineering challenges industry and government face today: digital engineering, AI-enabled systems, security, sustainability.
- Shapes INCOSE's strategic direction, prioritizing how to advance the discipline across industry, government, and academia.
- Sets the agenda through the Call for Solutions program, putting 30 high-priority needs in front of 52 active working groups.
- Holds an ex officio voting seat on the INCOSE Board of Directors through the CAB Chair.

WHAT MEMBERSHIP DELIVERS TO YOU

- Guide the direction of the discipline at the table where priorities are set
- Give employees access to state-of-the-art products developed by INCOSE working groups
- Align with peers and industry leaders, and see how they apply SE to solve business problems
- Find and hire competent, certified systems engineers from 5,300+ active SEPs worldwide
- Nominate candidates for 10 CAB seats in the Institute for Technical Leadership each year

WHO REPRESENTS YOU

Each member organization names a CAB representative, who receives complimentary INCOSE membership

HOW OFTEN WE MEET

Twice a year in person at the International Workshop and the International Symposium, plus monthly online sessions

HOW TO JOIN

Submit the CAB application on incose.org, or write to us at info@incose.org

What CAB membership delivers

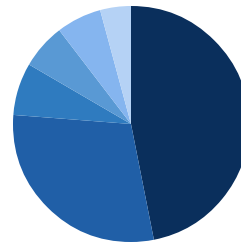

Every eligible employee, faculty member, and student at a CAB organization can hold a CAB Associate account

INCLUDED WITH CAB MEMBERSHIP

- Systems Engineering Handbook, digital download
- INSIGHT magazine and the Systems Engineering journal
- In Focus monthly and Members Newsletter quarterly
- INCOSE technical products at no charge
- Past symposia papers and proceedings
- CAB Knowledge Center on INCOSE Connect
- SE Tools Database (SETDB) and online tutorials
- Discounted registration for INCOSE events
- Complimentary INCOSE membership for your CAB rep
- One complimentary International Symposium registration

WHO SITS ON THE CAB

Industry	46.5%
Academia	29.3%
FFRDC / non-profit	7.1%
Consulting	6.1%
Government	6.1%
Tool vendor	5.0%

CALL FOR SOLUTIONS

The CAB has identified 30 high-priority needs facing the profession and put them directly in front of the people best equipped to solve them. Each one defines the problem, the criteria for success, and how solutions are judged.

SOME OF THE 163 CAB MEMBER ORGANIZATIONS

Aerospace Corporation	COMAC	General Motors	Leidos
Airbus	Cornell University	Georgia Tech	Leonardo
ANSYS	Cranfield University	Hitachi Energy	Lockheed Martin
BAE Systems	Cummins	Honeywell Aerospace	Los Alamos Nat'l Lab
Bechtel	Dassault Systèmes	Huawei Technologies	Medtronic
Becton Dickinson	Deloitte Consulting	Jama Software	MIT
Boeing	EMBRAER	JAXA	MITRE
Bombardier	Embry-Riddle	Jet Propulsion Lab	Mitsubishi Electric
Booz Allen Hamilton	FAA	John Deere	NASA
Boston Scientific	Ford Motor Company	Johns Hopkins Univ.	Naval Postgraduate Sch.
Caltech	GE Aerospace	KBR	Northrop Grumman
Carnegie Mellon SEI	General Dynamics	L3Harris Technologies	PTC

...and 100+ more organizations across industry, government, academia, FFRDCs, and tool vendors.

"Systems engineering is an important instrument on the path towards technological development. I am proud to be part of this, as a bridge between my organization and INCOSE, participating as a CAB representative."

Claudia A. Tocantins, MSc, PMP · CAB representative
